SRI ALLURI VENKATESWARA RAO
1933-2002

Founder-Chairman, Avanti Group

Your timeless vision, steadfast integrity, tireless pursuit of excellence, and deep-rooted belief in inclusive prosperity continue to illuminate our path. Your spirit lives on – in every milestone we achieve and every value we uphold.

A LEGACY THAT INSPIRES. A FUTURE WE BUILD.

At Avanti, we stand on the strong foundation laid by our Founder – a foundation built on values that transcend time. His principles of truth, resilience, and responsibility continue to shape our culture and fuel our aspirations.

Guided by this legacy, we embrace innovation not as an option, but as a responsibility. We push boundaries, nurture partnerships, and remain deeply committed to sustainable practices that enrich the aquaculture ecosystem.

As we look ahead, we do so with a profound sense of purpose – to create enduring value for all stakeholders, drive meaningful transformation in the industry, and carry forward the torch of excellence lit by our visionary founder.

EXPANDING POSSIBILITIES REDEFINING GROWTH

The fiscal year 2024-25 stands as a defining moment for Avanti Feeds Ltd. It wasn't merely a period of enduring industry headwinds, but one where we redefined growth by transforming adversity into tangible opportunity. As the global shrimp sector faced unprecedented challenges – from tariff shocks to softening demand and margin pressures – Avanti responded with extraordinary clarity of purpose, robust resilience in performance, and visionary strategic foresight.

Weathering the Tide, Widening Horizons

The Company reported a gross income of ₹5,778 crore, a 4.4% increase over the previous year, reaffirming its leadership position in the aquaculture feed sector. Profit Before Tax (PBT) rose to ₹738 crore, with Profit After Tax at ₹536 crore, driven by disciplined cost control, targeted market expansion, and a continued focus on high-efficiency feed formulations. These results reflect not just endurance – but evolution.

Efficiency Meets Expansion

At the heart of Avanti's stellar performance lies our unwavering commitment to operational excellence. Amidst rising input costs and pricing uncertainties, we continued to optimize the procurement of key raw materials – fish meal, soybean meal, and wheat flour – ensuring feed cost stability without compromising nutritional efficacy. This cost prudence, coupled with strategic benefits from policy frameworks and logistics optimization, enabled us to hold course even as global currents shifted.

Strategic Leap: Diversification as a Growth Engine

FY 2024–25 marked a pivotal moment as Avanti strategically ventured into adjacent growth avenues. The successful launch of fish feed products for India's burgeoning inland aquaculture market and our bold foray into the pet food segment signify a profound transformation. We are evolving from a market leader in shrimp nutrition to a diversified provider of protein and nutrition solutions. Built on Avanti's deep R&D foundation, these initiatives are poised to unlock significant new revenue streams while powerfully leveraging our existing distribution strengths.

Processing Power, Global Reach

The commissioning of the new shrimp processing plant at Krishnapuram in March 2024 has expanded processing capacity, enabling faster turnaround and enhanced export agility. Even as US market dynamics posed temporary disruption, the Company widened its international footprint through value-added products and alternative markets in Europe, Japan, and the Middle East. With greater control over the entire value chain, Avanti is decisively strengthening its position in the global seafood trade.

Commitment to a Sustainable Future

Avanti's growth narrative is grounded in sustainability – supporting farmers with advisory services, investing in precision aquaculture, reducing environmental impact, and building long-term nutritional value. The Company continues to align its expansion strategy with environmental and community goals, ensuring that growth is inclusive and responsible.

As we look ahead, we see a horizon brimming with untapped possibilities. With stronger fundamentals, a strategically diversified product portfolio, and a clear vision for innovation-led growth, Avanti Feeds is not just growing; we are truly redefining what's possible in Indian aquaculture and beyond.

GLOBAL HORIZONS: AVANTI'S STRATEGIC EXPANSION BEYOND BORDERS

In an era where resilience and adaptability define success, Avanti Feeds Ltd. is charting a transformative course, extending its footprint beyond domestic shores to embrace global opportunities. This expansion mitigates geopolitical risks and capitalizes on new growth vectors by extending our expertise in shrimp nutrition and processing to key international markets, building a more resilient global enterprise.

Expanding into Emerging Markets

Recognizing the potential of emerging aquaculture hubs, Avanti has strategically expanded its operations into Bangladesh, tapping into the country's growing shrimp farming ecosystem. Our road map now targets phased entry into the robust aquaculture economies of Middle East countries like Saudi Arabia, Qatar, Oman etc., where demand for high-quality feed and processed shrimp is rising.

Targeting Strategic Trade Corridors

With traditional markets like the United States undergoing tariff and regulatory disruptions, Avanti is actively diversifying its export destinations. The company is

stepping up its presence in Europe, the Middle East, and East Asia, aligning its export strategy with evolving global demand and forging new trade relationships. In doing so, Avanti aims to reduce its over dependence on any single geography and build a more balanced global portfolio.

Strengthening Global Partnerships

Avanti's long-standing collaboration with Thai Union Group, a global seafood powerhouse, continues to be a catalyst in its internationalization efforts. The partnership brings access to world-class research, advanced feed formulation technologies, and distribution synergies. It also enhances Avanti's credibility and acceptance in global markets, helping the company scale up more rapidly and reliably.

Building Export-Grade Infrastructure

To support its overseas ambitions, Avanti has commissioned a new state-of-the-art shrimp processing plant in Krishnapuram, Andhra Pradesh, with an annual capacity of 7,000 MT. This facility is geared to meet international quality standards, reduce lead times, and handle increased order volumes from global clients. With higher value-added capabilities, the plant positions Avanti to command premium pricing and cater to the growing demand for processed shrimp in high-end markets.

Outlook

As the aquaculture industry consolidates, Avanti is positioned to capitalize on emerging opportunities. Our disciplined expansion, deep industry expertise, and world-class infrastructure provide a formidable platform for growth, solidifying our market leadership and driving sustained shareholder value.

BEYOND NUMBERS. WITHIN EVERY POSSIBILITY.

Growth is often measured in charts and metrics – but at Avanti, we also measure it in trust earned, livelihoods uplifted, and futures made resilient. FY 2024-25 was a year where growth extended beyond the balance sheet – into new markets, new product lines, and deeper community impact.

Every division, every milestone, every innovation – is guided by a larger purpose: to create enduring value while strengthening the aquaculture ecosystem. From pioneering nutrition science to enabling sustainable farming practices, our approach goes beyond business metrics. It is about nurturing prosperity at the grass roots and building resilience into the future.

FY 2024-25 was not without its trials – global trade uncertainties, pricing volatility, and regulatory shifts tested the sector's agility. But for Avanti, it reaffirmed a core truth: when values are strong, outcomes follow. Through consistent engagement, science-led solutions, and the strength of our people, we not only withstood the waves but found new pathways to grow.

As we chart the next phase of growth, we do so with a responsibility to everyone who journeys with us – farmers, consumers, partners, and the planet. For Avanti, every number tells a story. And every story begins with a commitment to do better, grow stronger, and deliver meaningfully.

CHAIRMAN'S MESSAGE

“

We are entering FY26 with cautious optimism. While macroeconomic uncertainties remain, especially on the trade front, we are equipped with a diversified portfolio, strong financials, world-class infrastructure, and a deep-rooted culture of excellence.

Dear Shareholders,

It is with great pride and a renewed sense of purpose that I present to you the Annual Report of Avanti Feeds Ltd. for the financial year 2024-25 – a year that tested our resilience, reaffirmed our core strengths, and positioned us firmly on the path of strategic transformation.

This was a year of significant disruption for the Indian shrimp industry. The imposition of a 26% reciprocal tariff by the United States – our largest export destination – sent shockwaves across the value chain. With nearly 48% of India's shrimp exports directed to the US, the tariff led to paused contracts, price declines at farm-gate levels, and ₹2,000 crore worth of inventory being stranded or rerouted. Global shrimp demand too remained flat at around 4 million MT, due to subdued consumer sentiment in key regions such as the EU, China, and North America.

Despite this external volatility, your Company delivered a consolidated revenue of ₹5,778 crore, a 4.4% growth over the previous year. Profit after Tax stood at ₹557 crore, up from ₹394 crore in FY24.

We fortified our position as a leader in India's aquaculture industry by leveraging our deep farmer relationships, technical excellence, and agility in navigating market headwinds.

Performance Anchored in Strength

Our Feed Division registered a turnover of ₹4,563 crore, backed by consistent volumes and value-added innovations. We continued to enhance feed conversion ratios and disease resistance through a combination of proprietary formulations, improved raw material efficiency, and robust R&D.

Our Processed Shrimp Division, led by Avanti Frozen Foods, faced margin pressures due to external market dynamics but responded by increasing value-added exports and entering newer geographies beyond the US – particularly in the Middle East, Europe, and Japan.

In line with our long-term vision, FY25 marked important milestones in our diversification strategy. We expanded into fish feed, targeting India's vast inland aquaculture ecosystem – particularly freshwater species such as Sea Bass, Murrel, Rainbow Trout etc. With fish farming growing steadily, this segment presents a strong opportunity for scaling.

Equally exciting is our entry into pet nutrition, underpinned by the same science-backed quality and integrity that defines our shrimp feed. With

pet ownership on the rise in urban India and a growing shift toward healthy, protein-rich diets for companion animals, our foray into premium pet food aligns naturally with our core competency in nutrition.

Nutrition & Sustainability

At Avanti, we don't just produce feed – we deliver nutritional solutions that enhance farm productivity, improve animal health, and support sustainable aquaculture practices. We continue to invest in precision aquaculture, digital farm monitoring, and environmentally responsible sourcing. Our strategy is focused not only on profitability, but also on ecological stewardship and long-term value creation.

We also remain committed to supporting our farmers. In a year where falling farm-gate prices and disrupted demand led to panic across coastal belts, our ground teams remained engaged, offering advisory services, technical guidance, and facilitating access to inputs.

Looking Ahead with Confidence

India's aquaculture sector is at an inflection point. Backed by the Government's Pradhan Mantri Matsya Sampada Yojana (PMMSY), the sector is poised to achieve 22 million MT of seafood production by FY26. With infrastructure expansion, inland fisheries support, and rising domestic seafood consumption, Avanti Feeds is well placed to ride this wave of opportunity.

We are entering FY26 with cautious optimism. While macroeconomic uncertainties remain, especially on the trade front, we are equipped with a diversified portfolio, strong financials, world-class infrastructure, and a deep-rooted culture of excellence.

I wish to place on record my deep appreciation for our team at Avanti – our employees, channel partners, aqua farmers, investors, financial institutions, and all stakeholders. Your trust, resilience, and commitment inspire us every day. I am also grateful to my colleagues on the Board for their invaluable support and vision in navigating this complex yet rewarding journey.

With continued resolve and purpose, we will move forward – nourishing the world, empowering livelihoods, and creating sustainable value.

With my best wishes to everyone,

A YEAR OF STEADY PROGRESS AND STRATEGIC RESILIENCE

Avanti Feeds Ltd. delivered yet another year of steady and resilient performance in FY 2024-25, reinforcing its leadership in India's aquaculture sector and strengthening its international presence. Despite subdued demand and tariff-related disruptions in key export markets like the US, the Company maintained its leadership in India's shrimp feed segment, supported by its robust distribution network, field-level engagement, and science-backed formulations.

During the fiscal, India's seafood export volumes remained flat due to subdued demand from key markets like the US, EU, and China. Yet, Avanti Feeds effectively navigated the headwinds by enhancing product mix, improving operational efficiencies, and expanding into value-added segments. The Company's ongoing investment in innovation, digital advisory, and farmer engagement continued to yield visible outcomes.

For FY 2024-25, Avanti Feeds Ltd. recorded a gross income of ₹5,778 crore, a modest increase from ₹5,505 crore in the previous fiscal, reflecting pricing pressure and softer market demand. However, Profit Before Tax (PBT) stood at ₹737.49 crore, and Profit After Tax (PAT) at ₹557.05 crore, showcasing resilient profitability even under stressed global conditions. These results affirm the Company's ability to protect margins through disciplined cost management and diversified growth.

In the renewable energy segment, the Company's four windmills in Karnataka with a total capacity of 3.2 MW generated 47.95 lakh units of power, which was sold to Karnataka Power Transmission Corporation Limited (KPTCL) under a long-term Power Purchase Agreement.

FY 2024-25 was a year of recalibration and consolidation – where strategic decisions around global market expansion, diversification into fish feed and pet nutrition, and digital transformation were seeded for future growth. As the Company enters FY 2025-26, it stands prepared to unlock new opportunities and redefine its trajectory of growth and stakeholder value creation.

DELIVERING NUTRITION. DRIVING POSSIBILITIES.

At Avanti Feeds Ltd., nutrition is more than a formula – it's a strategy for farmer success and sector-wide sustainability. Our Shrimp Feed Division continues to lead India's aquaculture industry with high-performance, scientifically formulated feed that meets the evolving needs of shrimp farmers across the country.

Science-Led Feed, Proven on the Field

With an installed capacity of 7,75,000 metric tonnes per annum across five ISO- and BAP-certified feed manufacturing facilities, Avanti remains India's largest shrimp feed producer and one of Asia's most trusted brands. In FY 2024-25, despite global challenges such as fluctuating raw material prices and logistic uncertainties, the Feed Division delivered stable volume growth, supported by strong brand loyalty and extensive last-mile delivery capabilities.

Our feeds are precisely tailored with optimal protein and nutrient profiles for different life stages of shrimp. Continuous R&D and stringent quality control ensure superior feed conversion ratios (FCRs) and healthy shrimp growth. Avanti team always ensures that survival is high, FCR is low and better yields with increased profitability to farmers.

Empowering Farmers, Expanding Horizons

Avanti's value to farmers extends far beyond feed. A nationwide network of aquaculture experts offers pond management guidance, seed selection advice, and disease mitigation support. These efforts, combined with on-ground diagnostics and farmer training sessions, have translated into improved farm productivity and stronger farmer relationships.

Looking ahead, the Division is investing in digital farm advisory platforms, sustainability-focused feed formulations, and expanding its reach into untapped coastal and inland markets. In a year marked by uncertainty in global shrimp trade, it was the Feed Division that reinforced Avanti's leadership - with consistency, innovation, and a deep-rooted commitment to farmer prosperity.

FROM SHORES TO SHELVES: REDEFINING REACH IN SEAFOOD EXCELLENCE

Avanti Frozen Foods Pvt. Ltd. (AFFPL), the seafood arm of Avanti Feeds, continues to transform India's aquaculture bounty into premium shrimp products for discerning global markets. Since its inception in 2015, AFFPL has earned recognition as one of India's most dependable and quality driven seafood exporters.

Boosting Capacity, Enhancing Reach

FY 2024-25 marked a key milestone with the launch of a new, state-of-the-art processing plant at Krishnapatnam. This facility, with a 7,000 MT capacity, brings AFFPL's total annual processing strength to 36,000 MT across three modern facilities equipped with advanced automation, in-house labs, and robust cold chain systems. Strategically located near a port, the new plant enhances logistics efficiency and supports rapid market expansion.

Serving markets across the USA, Europe, Japan, South Korea, China, Canada, and the Middle East, AFFPL adheres to stringent global food safety certifications, ensuring consistent, world-class quality.

Built on Traceability, Trusted Worldwide

AFFPL's farm-to-fork supply chain is fully integrated and traceable, offering a diverse portfolio of raw, cooked, and value-added shrimp products. In FY 2024-25, despite tariff disruptions in the US and subdued global demand (shrimp consumption remained flat at ~4 million MT - Crisil, 2025), AFFPL stayed agile - realigning shipments, tapping alternate markets, and expanding customer offerings.

The US continued as the largest export destination, reflecting AFFPL's alignment with key market trends. Meanwhile, the company ramped up investments in digital traceability tools and ESG-aligned practices, reinforcing its sustainability promise.

Scaling New Horizons

With capacity expansion, operational flexibility, and a strong distributor network, AFFPL is poised to deepen its presence in Southeast Asia and Eastern Europe. As demand rises for responsibly sourced seafood, AFFPL remains a cornerstone of Avanti's global ambitions - delivering on quality, sustainability, and trust.

NURTURING GROWTH AT THE SOURCE: PREMIUM SEEDS FOR SUSTAINABLE AQUACULTURE

At the heart of every successful shrimp harvest is a dependable, disease-free seed. Avanti Feeds Ltd.'s Hatchery Division, located in Gudiwada village, Visakhapatnam district, Andhra Pradesh, continues to reinforce the foundation of India's aquaculture success by supplying high-quality post-larvae (PL) shrimp seed. As a vital link in the Company's integrated value chain, the hatchery plays a pivotal role in enhancing farm productivity and sustainability.

Excellence Rooted in Precision

With an annual production capacity of 600 million PL, the hatchery is equipped with cutting-edge seawater filtration systems, precision rearing tanks, and environmentally optimised culture facilities. Designed to replicate ideal growth conditions, the unit follows best-in-class hatchery management and biosecurity protocols, ensuring consistency in seed health, strength, and survivability.

Each batch undergoes stringent quality control through in-house diagnostic labs, offering farmers confidence in the seed's genetic integrity and performance.

Farmer-Centric, Impact-Driven

FY 2024-25 posed challenges, from tariff disruptions to fluctuating farm-gate prices. Yet, the hatchery rose to the occasion, reinforcing its support to farmers through enhanced disease surveillance, faster seed deliveries, and advisory services aligned with seasonal stocking cycles. The division's timely interventions helped reduce crop failures and improve survival rates across thousands of hectares of shrimp farms – particularly in Andhra Pradesh, the nation's shrimp hub.

Innovation Anchored in Biosecurity

In response to increasing biosecurity threats, Avanti has launched initiatives in pathogen screening, genetic enhancement, and training programs for farmers. These efforts, aligned with national priorities like doubling farmer income and ensuring disease-free aquaculture, reflect the hatchery's role as a knowledge centre for sustainable practices.

Sowing Trust, Harvesting Prosperity

As Avanti deepens its integrated aquaculture ecosystem, expansion plans are underway to strengthen broodstock development and regional hatchery networks. With its unwavering focus on quality, trust, and innovation, the hatchery division remains the bedrock of Avanti's commitment to empowering shrimp farmers nationwide.

NURTURING A NEW FRONTIER: AVANTI'S FORAY INTO PET NUTRITION

With over three decades of nutritional expertise in aquaculture, Avanti Feeds Ltd. has embarked on a promising new journey – into the rapidly growing world of pet care. Backed by deep R&D experience and state-of-the-art manufacturing infrastructure, the company has entered the pet nutrition segment with the launch of its premium cat food brand, Avant Furst.

PETCARE

India's pet food market, currently valued at over ₹5,000 crore, is witnessing strong double-digit growth, driven by rising pet adoption, increasing awareness about pet health, and demand for premium, nutrient-rich products. Recognising this shift, Avanti is positioning itself as a science led, quality-driven contender in this evolving consumer space.

Avant Furst – launched initially in select markets has been formulated with advanced nutritional profiles catering to the specific health needs of domestic cats. With carefully selected proteins, Omega fatty acids, and digestive enhancers, the product aims to set a benchmark in pet wellness. Positive early feedback has encouraged the company to accelerate plans for expanding its distribution footprint.

Encouraged by its success in the cat food category, Avanti is preparing to extend its portfolio into dog food and other pet care segments. The company's existing manufacturing ecosystem allows it to maintain stringent quality controls, while its reputation for consistent delivery makes it a trusted name as it diversifies into new B2C categories.

This move into pet nutrition not only adds a new vertical to Avanti's business but also reflects a larger strategy: leveraging core nutritional science and brand credibility to create value in adjacent consumer markets. With a strong foundation and a compelling product story, Avanti is well positioned to emerge as a trusted brand in India's pet care revolution.

AVANTI'S DEDICATION TO SUPPORTING FARMERS' SUCCESS

I achieved excellent results in my 1-acre pond using Avanti feed. With a stocking of 1.5 lakh seed, the harvest touched 3,526 kg with an average shrimp size of 27 grams. The FCR was an impressive 1:1.1, survival stood at 87%, and the ADG reached 0.29. I'm extremely satisfied with the performance of the feed and the consistent technical support provided by Avanti's team.

Their guidance helped me manage the pond efficiently and maximise output. I strongly recommend Avanti to fellow farmers looking for reliable results and strong performance.

With a large-scale operation of 180 acres and 27 million shrimp, I've seen tremendous results using Avanti Feeds. Their consistent feed quality has been instrumental in maintaining optimal FCRs and ensuring economic sustainability.

The consistent quality of Avanti directly contributes to the economic viability and success of my farm. Avanti Feeds is an indispensable part of our strategy to maximize production and profitability.

I manage 18 acres of shrimp farming in AV Nagaram, and Avanti Feeds has played a crucial role in our progress. When we faced difficulties with water pumping systems, their technical team responded immediately and resolved the issue efficiently.

Their proactive support and high-quality feed have improved our output and enhanced our confidence as farmers.

Over my years in shrimp farming, I have found Avanti Feeds to be an invaluable partner. With 12 acres under cultivation and a seed count of 1.5 million, their support has been crucial to my success. The consistently low FCRs, excellent harvests, and impressive yields have made a noticeable difference in my farm's productivity. Avanti's technical support is always prompt and practical, ensuring that I get the most out of my operations. I trust Avanti Feeds for all my farming needs.

For the last 19 years, I've trusted only Avanti Feeds for my 5-hectare tiger shrimp farm. Their feed quality ensures yields of up to 2,500 kg per acre, with 18 & 20 count sizes and a survival rate of around 70%.

I wholeheartedly recommend Avanti tiger feed for all Black tiger shrimp farmers. Their probiotics have kept my pond ecosystem healthy. Year after year, Avanti has helped me achieve consistent productivity and profitability.

At MVS Aqua Farm, we harvested 5,842 kg of shrimp from a single pond with an average count of 30 and an FCR of 1.30. This level of performance would not have been possible without the superior quality of Avanti Feeds and the routine visits by their experienced technicians.

We're proud to be long-time Avanti customers.

Our 24-acre farm delivered a biomass of 68.5 MT using only 93.75 MT of feed – resulting in an FCR of 1.37. The shrimp quality was exceptional, with a 30-count average.

Avanti's feed efficiency, coupled with their strong technical team, helped us achieve record-breaking results. They truly empower commercial farming.

Managing 150 acres, we harvested 439 MT of shrimp in 130 days, with a 90% survival rate and an FCR of 1.45. These numbers reflect the strength of Avanti's products and services.

Their feed consistency and expert support team have been instrumental in ensuring profitability on such a large scale.

From my 5-acre farm near Kakinada, I harvested 11.5 tonnes of shrimp with an 86% survival rate and an impressive FCR of 1.3. These results have boosted both efficiency and profitability.

Avanti Feeds not only offers reliable feed but also excellent guidance through every stage of cultivation.

COMMITTED TO COMMUNITY: AVANTI'S ONGOING CSR JOURNEY

HEALTHCARE INITIATIVES

Advancing Healthcare Access

The Avanti Healthcare & Diagnostics Centre in Kovvur has expanded its outreach, providing high-quality medical services to over 40 villages in rural Andhra Pradesh. Equipped with advanced diagnostic tools and staffed by experienced doctors, the Centre conducts regular health camps, blood donation drives, and specialized eye-care campaigns with free distribution of spectacles. Our focus on child and maternal health continues to be a cornerstone of this initiative.

NURTURING EDUCATION AND SKILLS

Education remains a central pillar of our CSR commitment. The Avanti Degree & PG College in Kovvur continues to offer affordable, quality education to students from under served backgrounds. Meanwhile, the AU-Avanti Aquaculture Skill Development Centre, established in collaboration with Andhra University, provides certified courses in shrimp farming, hatchery management, and processing, empowering youth with job-ready skills in the aquaculture sector.

STRENGTHENING RURAL INFRASTRUCTURE

Avanti Foundation actively contributes to infrastructure development through the construction of roads, community assets, cyclone shelters for shrimp farmers, and provision of equipment such as water purification units, dustbins, and water tins. Our support has helped ensure safer and more hygienic living conditions in rural areas.

PROMOTING ENVIRONMENTAL AND CULTURAL VALUES

From plantation drives during Vana Mahotsav and World Environment Day to milk donation programs at temples during festivals, our initiatives foster environmental awareness and cultural connection.

EMPOWERING LIVES

Our wide-ranging outreach also includes support for old-age homes, disaster relief during cyclones, sports coaching camps, donation of tractors and fire fighting equipment, and distribution of clothing and school furniture in remote communities.

Through these sustained efforts, Avanti Feeds Ltd. continues to strengthen its role as a socially responsible corporate citizen. By addressing critical needs across health, education, environment, and rural development, the Company strives to create lasting value for communities. Our CSR activities reflect a purposeful vision – fostering inclusive growth and enabling better livelihoods for present and future generations.

MANAGEMENT’S DISCUSSION AND ANALYSIS

Caveat

This section of Annual Report has been included in adherence to the spirit enunciated in the code of Corporate Governance approved by the Securities and Exchange Board of India ("SEBI"). Though, utmost care has been taken to ensure that the opinions expressed by the Management herein contain its perceptions on most of the important trends having a material impact on the Company's day-to-day operations, no representation was made that the following presents an exhaustive coverage on and of all issues related to the same. Further, the discussion following herein reflects the perceptions on major issues as on date and the opinions expressed here are subject to change without notice. The Company undertakes no obligation to publicly update or revise any of the opinions or statements expressed in this report, consequent to new information, future event, or otherwise.

Global Economy

The Global Economic Growth is slowing due to a substantial rise in trade barriers and the pervasive effects of an uncertain global policy environment. Growth is expected to weaken to 2.3% in 2025, with deceleration in most economies relative to last year. The global economy in FY2024-2025 experienced moderate growth amidst geo political tensions, inflationary pressures and evolving trade policies. The current year (2025) would mark the slowest rate of global growth since 2008, aside from outright global recessions. In 2026-27, a tepid recovery is expected, leaving global output materially below January 2025 projections. The outlook largely hinges on the evolution of Trade Policy globally. Growth could turn out to be lower if trade restrictions escalate or if Policy un-certainty persists, which could also result in build-up of financial stress. The subdued global growth prospects are unlikely to improve materially with policy actions to address increasing trade restrictions, geo-political tensions, heightened uncertainty and limited fiscal space.

Global Economy Vs Indian Economy

The Indian Economy is currently the world's fourth largest by nominal GDP, having recently surpassed Japan. While India's growth rate is impressive, particularly, compared to other major economies, and it is projected to remain the fastest – growing economy, challenges remain in terms of per capita income and certain social indicators. The global economy in contrast is experiencing slowdown with many developed economies facing headwinds.

Salient features of Indian Economy

- **Faster – growing major economy**
India is projected to maintain its position as the fastest-growing major economy in the coming years, with growth rates around 6-7%.
- **Fourth largest economy**
India has recently moved up to become fourth largest economy globally, surpassing Japan.
- **Strong domestic demand and public investment**
India's growth is fueled by robust domestic consumption and significant public investment.
- **Digital transactions**
Digital transactions, particularly through UPI have seen a massive increase, indicating a growing digital economy.
- **Export Growth**
India's exports, particularly, in engineering goods, electronics, pharmaceuticals and marine products have seen significant growth.
- **Inflation under control**
Inflation has been effectively contained through targeted fiscal and monetary policies.

Global Economy

- **Slow down in many developed economies**

Many developed economies, including the US and those in Europe, are experiencing slower growth rates than in the past.

- **Global growth projections revised downwards**

Global growth is projected to be significantly lower than previous estimates, with a weak recovery expected in the coming years.

- **Trade barriers and policy uncertainties**

Increase trade barriers and policy uncertainty are impacting global economy.

In essence, while India is a bright spot in the global economy, experiencing robust growth and rising global profile, it also faces internal challenges, the global economy, on the other hand, is facing headwinds and a slowdown in growth, making India's performance all the more noteworthy. Global Aquaculture and Seafood Industry Overview

After a challenging 2024 marked by weak consumer demand in key markets, the global aquaculture industry is poised for stronger production growth in 2025, according to a new report from Rabo Bank in partnership with Global Seafood Alliance (GSA).

In the Fish Sector, Atlantic Salmon, Seabass and Seabream, Pangasius are expected to have the highest growth.

The global Shrimp Aquaculture production is expected to increase by 2% in 2025, amid moderate growth rates in Asia and Latin America. According to the latest global Aquaculture survey from Rabo Research and the GSA, Shrimp output is set to reach around 6.1 Million Mts in 2025. The production in Asia is expected to grow by 2% in 2025.

The global Aquaculture market size stood at USD 310.6 Billion in 2024 with expectation of a 5.1% CAGR through 2030 from 2025 to 2030 with a projected USD 417.8 Bn by 2030, driven by rising health consciousness demand for sustainable protein and advances in Aquaculture Technologies. Global Shrimp demand has flat lined around 4 Million MT over the past years and is expected to remain subdued during the current fiscal as well, due to muted economic growth reduce consumer spending in key importing regions such as the US, the EU and China. (Source: *Crisil, Southern Shrimp Alliance, Rabo Bank.*)

Despite the optimistic outlook, the industry remains concerned about the market, economic conditions and Trade and Tariff barriers as a result of ongoing Trade pacts with US by several exporting countries as a result of Reciprocal Tariff announced by US.

Aquaculture and Seafood Sector – Indian Scenario

Aquaculture continues to be an important sector in the Indian economy, contributing not only to food security but also to employment generation and foreign exchange earnings. Recognizing its strategic significance, the Government of India initiated a "Blue Revolution" in the late 1980s and early 1990s, encouraging shrimp farming along India's vast coastline. Since then, India has emerged as a leading global producer and exporter of shrimp, with Andhra Pradesh, Odisha, West Bengal, Gujarat and Tamil Nadu driving cultivation and processing.

In FY 2023-24, India exported 1,781,602 metric tonnes of seafood valued at ₹60,523.89 crore (US\$7.38 billion), according to the Marine Products Export Development Authority. Frozen shrimp accounted for 716,004 metric tonnes, earning ₹40,013.54 crore in export revenue, about 66% of the total.

The following table outlines India's seafood and frozen shrimp exports over the past five years:

Exports during the Year	Total Seafood (Qty in MT)	Value (₹ crore)	Frozen Shrimp (Qty in MT)	Value (₹ crore)
2023-24	1,781,602	60,523.89	716,004	40,013.54
2022-23	1,735,286	63,969.14	711,099	43,135.58
2021-22	1,369,264	57,586.48	728,123	42,706.04
2020-21	1,149,510	43,720.98	590,275	32,520.29
2019-20	1,289,651	46,662.85	652,253	34,152.03

(Source: Marine Products Export Development Authority (MPEDA), June 2024)

India currently holds about 20% of the global shrimp market share, with production expected to remain flat at 1.2 million metric tonnes this fiscal. Nearly 48% of Indian shrimp exports are destined for the US market, making the country highly exposed to policy shifts in that geography.

Despite these headwinds, revenue growth for Indian shrimp exporters is expected to rise modestly by 2-3% in FY 2024-25, primarily driven by higher realisations due to increased prices and favorable currency movements. However, export volumes are likely to remain flat, and operating margins will face pressure as the tariff burden is passed on only partially and gradually.

The government has responded to this disruption with renewed emphasis on market diversification, exploring opportunities in East Asia, the Middle East, and Europe. In parallel, the Pradhan Mantri Matsya Sampada Yojana (PMMSY) continues to support domestic production and infrastructure development, targeting 22 million metric tonnes of fish production by FY 2025 and aiming to double export earnings. (Source: Wikipedia, 2024).

In addition, state-led initiatives—such as Jharkhand's road map to boost inland fisheries—underscore the decentralised approach to aquaculture expansion, focusing on training, infrastructure, and research.

As India's aquaculture sector enters a new phase of resilience and reform, efforts are underway to improve disease control, promote sustainable aquaculture practices, adopt digital technologies, and expand into value-added product lines. These transformations are expected to shape the sector's trajectory in the years ahead, sustaining its vital role in the economy.

Company Overview and Performance

In this volatile landscape, Avanti Feeds Ltd. demonstrated resilience and agility, delivering a steady performance while making strategic strides to diversify its business portfolio and reduce market dependence.

Segment-wise Performance

Shrimp Feed Division

The shrimp feed segment remained the primary contributor to revenue. Revenue increased to ₹4463.21 crores in FY 2024-25 as compared to ₹4395.66 crores in the previous year, reflecting a growth of 3.81%. Total volume increased marginally 5.5 lakh MT (from 5.32 lakh MT) during FY25 profitability improved significantly. This was driven by increased revenue, lower input costs (notably soybean and fish meal), better cost controls, and improved product formulations. Profit before tax from this segment rose to ₹658.74 crores compared to ₹407 crores in FY 2024-25.

The Company continued to strengthen its engagement with farmers, offering field-level support, training, and advisory services aimed at improving shrimp yields and feed conversion ratios. These efforts not only supported farmer confidence during a turbulent year but also reinforced Avanti's position as a partner of choice in the shrimp feed market.

Shrimp Processing and Export Division

The processing division reported revenues of ₹1,219 crores (previous year: ₹1,118 crores), reflecting modest growth despite global challenges. Export volumes increased from 13,444 MT in FY 2024-25 to nearly 14,149 MT during FY 2024-25. The division strategically expanded its customer base in Japan, Korea, and the EU, reducing its reliance on the U.S. market.

However, margins were impacted by higher ocean freight, countervailing duties, and post-expansion depreciation. Profit before tax was ₹86 crores (FY 2023-24: ₹136 crores). Efforts are underway to shift to more value-added offerings and improve realizations across all export destinations.

Strategic Diversification Initiatives

Pet Food Segment Entry

Taking advantage of significant growth in the Indian Pet Food market (Dog, Cat food etc.,) due to increase of pet population, Avanti Group has entered the pet food business through a joint venture with Bluefalo Petcare Co. Ltd., Thailand establishing Avanti Pet Care Pvt. Ltd. (APCPL) as a subsidiary of Avanti Feeds Limited. APCPL is in the process of establishing a state-of-the-art manufacturing facility for production of Dog and Cat Food in India, catering to the increase in the domestic consumption of Pet Foods. The commercial production is scheduled to be commenced early 2027. In order to establish a market for Pet Food products, APCPL has started marketing Pet Foods under its Brand by importing premium cat food from Joint Venture Partner. Bluefalo, Thailand. The Brand name of the product is "Avant Furst," and marketed pan India. APCPL has plans to launch the Dog Food under brand "Avant Furst" across India in August 2025.

Fish Feed

The Company, with the object of undertaking production and sale of Fish Feed in the domestic market, has undertaken performance trials of Fish Feed, imported from the Joint Venture partner, Thai Union Feed Mill Ltd, Thailand. On successful trials, the Company proposes to set-up the manufacturing facility of Fish Feed with Technical-Know how provided by Thai Union Feed Mill under Technical Collaboration Agreement with them.

Response to Trade Disruption

The Company promptly reassessed its exposure to U.S.-bound exports and accelerated efforts to diversify product lines and markets. The strategy includes:

- Pivoting to value-added shrimp products to improve margin stability
- Expanding exports to less tariff-affected geographies
- Strengthening the domestic feed distribution network

Financial Performance

During FY 2024-25, the Company recorded a consolidated revenue of ₹5,777.73 crores compared to ₹5,505.16 crores in the previous year, reflecting a year-on-year growth of 4.95%. Profit Before Tax stood at ₹737.49 crores (previous year: ₹536.85 crores), while Net Profit after Tax rose to ₹557.05 crores from ₹393.80 crores in FY 2023-24.

This robust performance was underpinned by strong demand recovery during the year, operational efficiencies, and a favorable input cost environment, especially in the shrimp feed segment. Despite a challenging year quarter marked by trade uncertainties and processor push backs following the U.S. tariff hike, the Company maintained profitability through prudent inventory management and strategic cost rationalization.

On a standalone basis, the revenue stood at ₹4,563.21 crores, with a Profit Before Tax of ₹658.14 crores and Net Profit of ₹492.30 crores.

Strengths, Weaknesses, Opportunities and Threats:

Strengths

Avanti Feeds is pioneer in Indian Shrimp Industry having over three decades of operations. The company has strong and long lasting collaboration with Thai Union, a multi-national company in Global Seafood Industry. The Company is in constant interaction with Thai Union in exchange of developments in Aquaculture industry, bringing into India and to the door step of the Indian farmer to reap the best results in Aquaculture. The Feed formulation, Disease Management, Global market developments are exchanged periodically and Strategies are formulated to be the best provider of services to the farmer. This has resulted in a strong base of loyal farmers to the Company. The Company has ventured into research & development projects for sustainable growth in Shrimp Farming.

Avanti is well-equipped to meet the comprehensive needs of farmers. It has built a strong PAN-India feed dealership network and established partnerships with channel partners, processing units, and hatcheries. Regular interactions with stakeholders ensure seamless integration of operations. The company maintains constant communication with aqua-farmers, offering outreach programs and round-the-clock services through its qualified and experienced technical staff.

These initiatives have propelled Avanti to achieve a dominant position with a nearly 50% market share in the shrimp feed sector. The company is taking further steps to not only maintain but also increase its market share. Its subsidiary, Avanti Frozen Foods Private Ltd., focused on shrimp processing and export is expected to experience significant growth in both traditional and value-added products. The processing facilities are being expanded, with a particular focus on cooked and value-added products. Avanti is strategically focusing on exploring new export markets for both shrimp feed and shrimp exports.

Weaknesses

Despite being a significant sector in the Indian economy, the aquaculture industry faces several challenges and weaknesses. These include high production costs, inadequate infrastructure facilities, power supply issues, unregulated cost of raw materials, and shortage of cold storage facilities, and rising cost of ocean freights.

In addition, highly fluctuating raw material costs, dependence on climatic conditions and international developments on Shrimp prices, the Company is put to severe hardship, more often than not, due to factors beyond its control.

While the aquaculture industry and its stakeholders are aware of these challenges and taking measures to address them, government policies are slowly coming into play to help overcome some of these issues.

Avanti Feeds is aware of these weaknesses and challenges and is pro-actively preparing to overcome them through sustained measures. The company remains confident in its ability to address these issues and mitigate their impact on its operations.

Opportunities

The global seafood market has been witnessing a continuous uptick in recent years riding on recognition of its benefits to health. The growing awareness of the health benefits of seafood, with its nutritional and protein content, presents a favorable environment for increased consumption.

Health experts promoting seafood as a healthier alternative to red meat, which is being associated with challenges to human health, further contributes to the market's potential. Additionally, the rising purchasing power of the middle class and their desire for diverse food choices create opportunities for the seafood industry, including shrimp.

India, with its long coastline, farming community, and availability of land and labor, has emerged as a major player in the global shrimp industry. The Marine Products Export Development Authority, under the Union Ministry of Commerce, has drawn up a plan to achieve marine products exports worth ₹1 Lakh Crore by 2025, showcasing the government's commitment to supporting and promoting the industry's growth.

However, recent international market challenges, such as high inflation in developed nations, ongoing Russia- Ukraine conflict, and Middle-East crisis, have posed supply chain and price challenges in the short term. As a result, the rapidly growing shrimp export industry in India has come under pressure.

To mitigate the risks associated with excessive reliance on exports, there is a need to focus on promoting and expanding domestic consumption and markets. Avanti Feeds has recognized this need and is preparing itself accordingly.

The company has taken proactive steps, including product innovations, exploring new distribution channels, embracing e-commerce and home deliveries, and optimizing supply chains. These measures have strengthened the company's position and demonstrated its preparedness in anticipation of market trends. The company's performance over the past two years, with increased top-line growth, is a testament to its readiness to tap into domestic opportunities and adapt to market dynamics.

Threats

The aquaculture industry, including shrimp farming, faces various threats and challenges that need to be addressed for sustainable growth. These threats can be categorized into climate-related risks, production costs and disease control, market volatility, and external factors.

1. **Climate-Related Risks:** Aquaculture is highly dependent on favorable climatic conditions, and events like floods, cyclones, and other natural disasters can disrupt production. Climate change poses long-term risks to the industry, including changes in water temperatures, ocean acidification, and rising sea levels, which can impact shrimp farming.
2. **Production Costs and Disease Control:** Farmers face challenges related to the cost of production, including feed costs, availability and quality of seeds, disease prevention and control measures, and ensuring food safety standards. Disease outbreaks can cause significant economic losses and affect the overall sustainability of the industry.
3. **Market Volatility:** The international shrimp market is subject to price volatility, which can impact the profitability of shrimp farmers and exporters. Fluctuating foreign exchange rates and increasing raw material costs, including feed ingredients, can further add to market uncertainties.
4. **External Factors:** Factors such as high inflation in importing nations, restrictions due to the COVID-19 pandemic, and continued Russia-Ukraine War, its fallout of pushing up inflation in developed economies, the recent Israel invasion of Gaza and conflict with Iran and the consequence of Red Sea crisis and increasing ocean freights can impact international trade and export opportunities. Dependence on imported Specific Pathogen-Free (SPF) Vannamei brood stock raises concerns about the long-term impact if international cargo movements are restricted.

The levy of Countervailing Duty (CVD) which is 5.77 % presently is always an additional burden to the export of shrimps to USA. The USA announced new reciprocal tariffs on 2nd April 2025. A baseline tariff of 10 % on all exports to the USA came into effect from 5th April 2025 with country specific reciprocal tariff scheduled to begin on 9th April 2025. However, the USA announced a 90-day suspension of country specific reciprocal tariffs on 09th April 2025, which may be an additional burden to the Company.

To mitigate these threats and achieve sustainable growth, Avanti Feeds focuses on the following:

Diversification and Domestic Market Opportunities: Explore and tap into the potential of the domestic market to reduce reliance on volatile international markets. Developing strategies to meet the growing demand for seafood within the country can help de-risk the industry.

Traceability and Pond Management: Implementing strict traceability systems and adopting scientific pond management practices can enhance productivity, reduce disease risks, and ensure compliance with food safety standards. This can help build consumer trust and confidence.

Forex Management: Managing foreign exchange risks through effective forex management strategies can help mitigate the impact of fluctuating exchange rates on profitability.

Research and Development: Continued investment in research and development is crucial to developing disease-resistant shrimp varieties, improving feed formulations, and implementing sustainable farming practices.

By addressing these threats and implementing necessary measures, Avanti minimize risks and works towards long-term growth and sustainability.

Future Outlook for India's Aquaculture and Seafood Sector:

With favorable domestic policy shifts, increased budgetary support, and growing consumption of seafood and pet food, Avanti is well-positioned for sustainable growth. Long-term global demand for high-protein, responsibly farmed seafood remains strong, and India's competitive edge in aquaculture will continue to support expansion.

The Company remains committed to delivering long-term value through science-backed nutrition, market diversification, and stakeholder-centric growth.

To conclude, the stake holders of the industry look forward for a bright future for the Aquaculture industry in 2025, unless any unforeseen developments in climate condition or changes in global market scenario impacts the Industry.

POWER

The Company has investment in the following power projects:

- a) The 3.2 MW Windmill Project in Chitradurga, Karnataka State installed in the year 2005 is operational and has generated 47.95 Lakhs units during the year.
- b) Srivathsa Power Projects Private Limited (SPPPL): SPPPL is a 17.2 MW gas based independent power project situated in Andhra Pradesh.

From the Financial year 2023-24, Plant has stopped generating power due to increase in APM- gas price and non-availability of APM-gas since May, 2022. In addition to that in the month of July, 2022, Gail India Limited – a Government of India undertaking – a Maharatna Company, who is a natural gas supplier to Srivathsa, had informed that, as per the Ministry of Petroleum and Natural Gas guidelines and directives, the APM gas from KG basin allocated to power plants will be diverted to CGD (City Gas Distribution) entities outside KG basin w.e.f 01st August, 2022. As per the above guidelines, Srivathsa is not getting APM gas from Gail India Limited. As a result, there is no power generation during the financial year. During the year 2024-25, the Company reported Other Income of ₹14.83 Lakhs and a loss of (₹161.03) Lakhs after charging interest and depreciation, as per audited financials.

- (c) Patikari Power Private Limited: The Company holds 25.88% equity shares in PPPL which has a 16 MW Hydel Power Project in Himachal Pradesh, India. During the Financial year 2024 25 as per audited financials the Company generated 38.79 Million saleable energy units, yielding a gross sales income of ₹872.70 Lakhs which resulted in a net profit of ₹156.27 Lakhs after charging interest, depreciation and tax.

Internal Control Systems and their Adequacy

The company has a proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and that all transactions are properly authorized recorded and reported correctly. Further, the internal control system is designed to ensure that all the financial and other records are reliable for preparing financial statements and for maintaining accountability of the assets.

The Company has engaged an Independent Chartered Accountant firm as Internal Auditor responsible to ensure compliance of all the statutory requirements by the Company. The finance department in co-ordination with Internal Auditor is also responsible for periodical risk appraisal, internal as well as external, of all the functional departments in the organization is being taken up. 26. Overview of the entity's material responsible business conduct issues¹⁰

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:

⁹ GRI 2-16, GRI 2-25, GRI 2-26, ¹⁰ GRI 3-2

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate ¹¹	Financial implications of the risk or opportunity (Indicate positive or negative implications) ¹²
1.	Water & Waste-water Management	Opportunity	Avanti has successfully implemented a comprehensive zero liquid discharge program, which has the objective of completely eliminating liquid waste from our operations. This program encompasses all aspects of our business activities and is specifically designed to minimize the discharge of pollutants into the environment. To achieve this, significant investments have been made in advanced treatment and discharge systems. The water processed through our effluent treatment plant(s) is efficiently treated and subsequently utilized for in-house plantation purposes. Additionally, we have implemented rainwater harvesting systems across our facilities to conserve water resources and alleviate strain on municipal water supplies. It has also implemented water recirculation systems & Solar panels there by reducing water withdrawal and dependency on grid electricity.		Positive By implementing efficient water recycling and rainwater harvesting systems, the company has reduced costs associated with water procurement and wastewater disposal. Additionally, compliance with environmental regulations can help avoid potential fines or operational disruptions. These measures also enhance the company's reputation, potentially attracting environmentally conscious investors and customers, which can lead to increased market share and profitability.
2.	Labor Practices	Opportunity	A positive and supportive working environment boosts employee productivity and the quality of their work, resulting in improved product quality and customer satisfaction, which ultimately benefits the company's bottom line. Moreover, fair wages and proper working conditions help reduce labour turnover, creating a stable workforce, less disruption in the work environment, and improved social sustainability. Labour practices are particularly significant for Avanti Feeds, given the labour - intensive nature of the aquaculture industry. To ensure fair labour practices, worker safety, and employee well-being, the company has implemented several initiatives, including a robust code of conduct, regular third-party audits for social compliance, and a 24/7 helpline for worker support and grievance redressal. These efforts not only mitigate risks linked to labour disputes but also enhance employee satisfaction and productivity, ultimately contributing to the company's long-term operational efficiency, reputation, and sustainability.	-	Positive The ethical labour practices adopted by Avanti Feeds positively impact its financial performance. By fostering a safe and fair work environment, the company boosts employee productivity and minimizes turnover, leading to operational cost savings. These practices also reduce the likelihood of legal disputes, strikes, or penalties, safeguarding financial stability. Additionally, the emphasis on worker well-being enhances Avanti Feeds' reputation, attracting socially responsible investors and loyal customers, which contributes to increased market share and higher stock valuations.

3.	Selling Practices	Opportunity	In a highly competitive shrimp feed industry, adopting unique selling practices allows Avanti Feeds to differentiate its products, attract more customers, and boost sales. By focusing on customer relationships, providing technical support to shrimp farmers, and offering tailored solutions, the company enhances customer loyalty and trust. Furthermore, with the global demand for shrimp rising—particularly in markets like the United States, Japan, and Europe—engaging with international buyers, participating in trade shows, and complying with international regulations enable Avanti Feeds to tap into these expanding markets and solidify its position as a leader in the aquaculture industry.	-	Positive The selling practices of Avanti Feeds have significant positive financial implications that contribute to the company's sustained growth and profitability. By leveraging an extensive network of dealers and distributors, the company ensures efficient distribution of its products, enabling increased sales volumes and consistent revenue streams. Additionally, participation in trade shows and compliance with international regulations opens doors to lucrative international markets, further boosting financial performance.
4.	Energy Management	Opportunity	Avanti Feeds has embraced sustainable energy practices to drive both environmental and financial benefits. By installing rooftop solar panels, Avanti harnesses clean, renewable energy from the sun, reducing its carbon footprint while achieving cost savings and energy independence. Furthermore, the company actively supports BESCO's electricity supply through the provision of wind-generated power, demonstrating its commitment to the region's energy demands. Additionally, participation in gas-based and hydroelectric power projects not only enhances profitability but also contributes to the sustainable energy sector, aligning with global sustainability goals and ensuring long-term operational resilience.	-	Positive Avanti Feeds' focus on sustainable energy practices has a positive financial impact on the company. By investing in rooftop solar panels, the company reduces its reliance on conventional energy sources, leading to significant cost savings over time. The use of wind-generated power, supplied to BESCO, not only supports regional electricity demands but also generates additional revenue through power purchase agreements.

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate ¹¹	Financial implications of the risk or opportunity (Indicate positive or negative implications) ¹²
5.	Product Quality & Safety	Opportunity	The certifications achieved by Avanti Feeds, such as the Best Aquaculture Practices (BAP), ISO standards, HACCP, present a valuable opportunity as a material issue. These certifications not only validate the company's commitment to maintaining high product quality and safety standards but also enhance its credibility in both domestic and international markets. By adhering to globally recognized benchmarks, Avanti Feeds gains a competitive edge in the highly regulated aquaculture industry, enabling it to access premium markets and attract discerning customers.	-	Positive The certifications achieved by Avanti Feeds have substantial financial implications that contribute to the company's growth and profitability. Additionally, adherence to these global standards minimizes the risks of product recalls, legal disputes, or penalties, safeguarding financial stability. The trust established through these certifications also fosters long-term relationships with stakeholders and customers, ensuring consistent revenue streams.
6.	Materials Sourcing & Efficiency	Opportunity	The company prioritizes sourcing high-quality raw materials, such as fish meal and soybean meal, which are essential for producing premium shrimp feed. By partnering with certified suppliers and participating in Fishery Improvement Projects (FIPs), Avanti ensures responsible and sustainable sourcing practices, reducing environmental impact and aligning with global sustainability standards.	-	Positive By prioritizing sustainable and high-quality raw materials, the company stabilizes costs and mitigates risks associated with price volatility in traditional inputs like fish meal. Sustainable sourcing through partnerships and participation in Fishery Improvement Projects (FIPs) strengthens supply chain reliability and reduces risks tied to regulatory or environmental challenges. Avanti Feeds are exploring sustainable alternatives, such as plant-based proteins and oils to reduce dependency on traditional fish meal while maintaining the nutritional quality of their feed. This transition is not only environmentally responsible and also helps in mitigating supply chain risks.

	Environmental	Renewable Energy Integration & Grid Electricity Reduction	Avanti Feeds is implementing a comprehensive strategy to reduce dependence on grid electricity and integrate renewable energy. It achieved a 10.17% cut in non-renewable electricity consumption, reducing usage from 185,242.85 GJ to 166,400 GJ and saving a total of 18,842.85 GJ. This achievement is attributed to targeted energy-efficient initiatives, including the installation of solar panels which contributed 7.85% to the reduction, and the integration of Variable Frequency Drives (VFDs) that optimized equipment operations, resulting in a further 4.44% savings. These distinct interventions demonstrate our continued commitment to sustainability and reinforce our role in advancing the transition towards cleaner, more efficient energy systems at both national and global levels. Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements ¹⁷	"At Avanti Feeds, we remain deeply committed to transparency, sustainable growth, and impactful practices. The year 2025 brought new challenges to the shrimp feed industry, requiring us to navigate evolving environmental, social, and governance (ESG) landscapes with resilience and innovation. ESG Challenges in the Shrimp Feed Industry: The aquaculture industry, and particularly shrimp farming, faced increasing scrutiny over environmental practices, responsible supply chain management, and stringent global regulatory standards. Key challenges included managing effluent discharge from farming processes, ensuring sustainable sourcing of raw materials for feed production, and empowering the farming community with knowledge and resources. Despite these complexities, I am pleased to share the significant progress we have made in advancing our ESG goals: Environmental: - The ZLD system is in place across all major processing plants to treat and recycle wastewater generated during shrimp processing. - Rooftop Solar Panels: Installed across processing plants to generate clean energy and reduce dependence on traditional power sources. Social: - Conducted training sessions for more than 20,000 farmers, equipping shrimp farmers with sustainable farming techniques to maximize productivity while minimizing environmental impact. - Launched a community health initiative, providing healthcare support to shrimp farming communities in under served regions.

SECTION C: PRINCIPLE WISE PERFORMANCE DISCLOSURE

The purpose of this section is to assist organizations in showcasing their proficiency in integrating principles and core elements into critical processes and decisions. The Company has duly provided all mandatory disclosures as per the BRSR framework.

PRINCIPLE 1: BUSINESSES SHOULD CONDUCT AND GOVERN THEMSELVES WITH INTEGRITY, AND IN A MANNER THAT IS ETHICAL, TRANSPARENT AND ACCOUNTABLE

Principle 1 of the Business Responsibility and Sustainability Reporting (BRSR) framework emphasizes that businesses must operate with integrity, uphold ethical practices, ensure transparency, and maintain accountability. This involves adhering to strong corporate governance standards, adopting a robust code of ethics, and conducting operations in a fair and responsible manner. Companies are encouraged to disclose accurate and timely information to stakeholders, implement mechanisms like whistle blower policies for accountability, and ensure compliance with legal and regulatory norms. By doing so, businesses build trust, foster credibility, and contribute positively to the economy and society.

By embedding ethical practices, ensuring transparency in its financial and operational processes, and adhering to international and national standards, Avanti Feeds demonstrates a strong alignment with Principle 1 of the BRSR framework. This commitment not only builds trust with stakeholders but also ensures sustainable and responsible growth.

6. Is there a mechanism available to receive and redress grievances for the following categories of employees and worker? If yes, give details of the mechanism in brief: ³⁰

	Yes/No (If Yes, then give details of the mechanism in brief)
Permanent Workers	To ensure a fair and systematic approach to resolving employee grievances, Avanti has instituted a well-defined Standard Operating Procedure (SOP). This SOP outlines a structured path for employees to raise concerns while guaranteeing that these concerns are addressed thoughtfully and confidentially. Here's an elaborated view of the process: 1. Initial Reporting to the Reporting Manager: Employees who encounter workplace issues or challenges are encouraged to first approach their reporting manager. This direct line of communication fosters a sense of trust and allows concerns to be addressed at the immediate level, promoting faster resolution. Examples of such issues might include interpersonal conflicts, concerns about work conditions, or queries related to job roles and responsibilities. • Employees can schedule a meeting or discuss their concerns informally, ensuring a respectful and constructive dialogue. • Managers are expected to listen attentively, evaluate the issue objectively, and propose feasible solutions within their authority. 2. Escalation to the HR Department: If the grievance cannot be resolved satisfactorily at the managerial level, employees have the option to escalate their concern to the HR department. The escalation process ensures that employees receive unbiased attention and further efforts are made to address the issue. • Mode of Escalation: Concerns can be reported to HR through email or written communication, providing a clear description of the issue, any actions already taken, and the desired resolution. • HR representatives act as mediators, reviewing the situation impartially and working with all parties involved to reach a fair outcome. 3. Commitment to Confidentiality: The company places utmost importance on maintaining confidentiality throughout the grievance-handling process. This ensures the privacy, dignity, and trust of all parties involved, creating a safe environment for employees to share their concerns without fear of retaliation or judgment. • Sensitive details about the grievance are disclosed only to relevant parties who are directly involved in resolving the matter. • The company adheres to strict data protection policies to safeguard employee information. 4. Timely Resolution: Addressing grievances promptly is a cornerstone of the company's commitment to its employees. By setting clear time lines for each stage of the process, the company ensures that concerns are not left unresolved or prolonged unnecessarily. • Example: An initial response might be provided within 2 business days, and a resolution could be aimed for within 10-15 business days, depending on the complexity of the issue. • Employees are kept informed about the progress of their case at regular intervals, fostering transparency. 5. Creating a Supportive Environment: The overarching goal of the SOP is to nurture a workplace culture that prioritizes open communication, mutual respect, and shared accountability. By actively encouraging constructive dialogue and feedback, the company reinforces its values and principles. • Employee feedback about the grievance process is actively sought to identify areas for improvement. • Managers and HR are trained to handle grievances empathetically and professionally. By adhering to this SOP, the company demonstrates its unwavering dedication to creating an inclusive and equitable workplace. Employees are empowered to express their concerns, confident that their voices will be heard and their issues resolved with fairness and integrity. This structured approach not only resolves individual grievances but also strengthens the organization's overall culture and commitment to its workforce.

10. Health and safety management system

S. No	Particulars	Response
a.	Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system? ³⁴	At Avanti Feeds, ensuring the health, safety, and well-being of our employees remains a cornerstone of our operations. To achieve this, we have implemented a comprehensive Occupational Health and Safety Management System (OHSMS) that ensures a safe, hygienic, and compliant work environment across all our facilities. Here are the key measures and practices we follow: 1. Workplace Safety Protocols - Stringent Safety Guidelines: We adhere strictly to workplace safety regulations, ensuring a hazard-free work environment. - Personal Protective Equipment (PPE): Employees working in processing and cold storage areas are provided with high-quality PPE such as gloves, masks, insulated clothing, and safety boots to protect them from extreme temperatures and other workplace hazards. - Safety Inspections and Audits: Regular inspections and audits are carried out across all facilities to proactively identify and mitigate risks, ensuring the safety of our team. 2. Health and Wellness Initiatives - Employee Health Programs: Avanti Feeds organizes health awareness drives, periodic medical check-ups, and interactive sessions with healthcare professionals to promote holistic well-being among employees. 3. Training and Emergency Preparedness - Comprehensive Safety Training: All employees undergo regular training sessions that cover essential topics like fire safety, food and handling hazardous materials responsibly. - Mock Drills and Emergency Training: Frequent mock drills are conducted to prepare employees to respond efficiently to potential workplace incidents, ensuring their safety and effective containment of risks. Avanti Feeds remains deeply committed to creating a culture where safety is prioritized, employee health is supported, and workplace risks are effectively managed. Through these measures, we strive to protect our valuable workforce but also to set benchmarks in the shrimp Feed industry for operational excellence and ethical practices.
b.	What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity? ³⁵	Avanti Feeds, as a company engaged in aquaculture operations, places a strong emphasis on workplace safety through a systematic hazard identification and risk assessment process. This approach ensures that both routine and non-routine tasks within the aquaculture sector are carried out in a safe and controlled environment, effectively minimizing risks to employees, contractors, and other stakeholders involved. Key Measures and Coverage 1. Safety Drills and Protocol Testing: Regularly organize safety drills to evaluate the effectiveness of safety protocols in aquaculture operations. These drills help identify and address potential hazards, ensuring a safer work environment for employees and mitigating risks associated with aquaculture processes. 2. Employee and Field Feedback: Foster open communication channels with employees, especially field staff, to gather valuable insights on risks they may have encountered or anticipated. Analyse this feedback thoroughly to pinpoint potential safety and operational risks, and develop actionable strategies to address these challenges effectively. This collaborative approach ensures a proactive response to evolving risks in aquaculture. 3. Quarterly Risk Assessments: Conduct comprehensive risk assessments on a quarterly basis to proactively identify and evaluate potential hazards in aquaculture activities. This includes assessing operational, environmental, and safety risks. Implement appropriate safety measures and protocols to minimize or eliminate these risks, ensuring the company's operations remain efficient, sustainable, and safe.

5. Mechanism for Zero Liquid Discharge: ⁵⁴

Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.	Yes, Avanti Feeds has implemented a Zero Liquid Discharge (ZLD) system to ensure responsible water management and minimize environmental impact. 1. Coverage & Scope: - The ZLD system is in place across all major processing plants to treat and recycle wastewater generated during shrimp processing. - It applies to effluent from cleaning, washing, and processing activities, ensuring that no untreated liquid waste is discharged into the environment. 2. Implementation & Process: Effluent Treatment Plant (ETP): Wastewater is treated through two ETP units, undergoing primary, secondary, and tertiary treatment to effectively remove contaminants. Water Reuse: The recovered water is reused for non-potable purposes including landscaping irrigation and sanitary facilities. Solid Waste Management: Concentrated waste is safely converted into bio-solid sludge for disposal in compliance with environmental norms. This ZLD mechanism enhances water efficiency, reduces environmental footprint, and ensures regulatory compliance, reinforcing Avanti Feeds commitment to sustainable and responsible operations.

8. Project related to reducing Green House Gas emission: ⁵⁶

Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

Avanti Feeds is dedicated to reducing greenhouse gas (GHG) emissions and enhancing sustainability through several impactful initiatives:

1. Renewable Energy Adoption

- **Rooftop Solar Panels:** Installed across processing plants to generate clean energy and reduce dependence on traditional power sources.
- **Dedicated Solar Farm:** Acquired land for large-scale solar panel installations, significantly increasing the use of renewable energy.

2. Energy Efficiency Measures

- **Upgraded Equipment & Machinery:** Transitioned to energy-efficient refrigeration and processing units, reducing electricity consumption.
- **LED Lighting Systems:** Replaced conventional lighting with LED systems, lowering energy usage and enhancing efficiency.

3. Sustainable Refrigeration & Transportation

- **Eco-Friendly Refrigerants:** Introduced low-GWP (Global Warming Potential) refrigerants in cold storage units, minimizing environmental impact.
- **Optimized Logistics:** Streamlined transportation routes and adopted fuel-efficient vehicles to reduce emissions from supply chain operations.

4. Water Management

- **Effluent Treatment & Reuse:** Implemented Zero Liquid Discharge (ZLD) systems, ensuring wastewater is treated and reused to minimize environmental impact.

These initiatives underscore Avanti Feeds unwavering commitment to sustainability, demonstrating its proactive approach in reducing carbon footprints and aligning with global climate and environmental goals.

10. Waste management practices adopted in the establishment: ⁵⁸

Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Avanti Feeds follows a comprehensive waste management strategy to minimize environmental impact and promote sustainability.

1. Comprehensive Waste Management Practices:

Avanti has developed and implemented a wide range of waste management strategies aimed at minimizing waste generation. These practices are designed to ensure that all waste is handled responsibly, with a focus on protecting the environment.

2. Strategic Collaborations:

Avanti has established partnerships with authorized organizations and recycling facilities. These partnerships are critical for ensuring that all waste generated is properly managed, processed, and recycled in a way that aligns with environmental guidelines and sustainability goals.

3. Commitment to Waste Reduction:

The organization emphasizes the importance of reducing waste at its source. By actively working to minimize the amount of waste produced, Avanti aims to lessen its environmental footprint while maintaining efficient and sustainable operations.

4. Responsible Disposal Methods:

All waste is disposed of in an environmentally responsible manner. This involves adherence to regulatory standards and practices that prioritize the well-being of the planet.

5. Ongoing Efforts and Prioritization:

Avanti is committed to continuously improving its waste reduction and management processes. This commitment ensures that responsible waste management remains a priority across all areas of the organization's operations.

6. Strict Avoidance of Toxic Chemicals:

Avanti has taken a firm stance against the use of toxic chemicals. This policy extends to both the production processes and the plant premises, reinforcing the company's dedication to ensuring a safe and eco-friendly work environment.

3. Community redressal mechanism:

Describe the mechanisms to receive and redress grievances of the community ⁶⁴
Grievance Redressal Mechanism (GRM) is an important aspect of assuring our strong relation with the community as it provides us social license to operate and execute the community initiative projects. This mechanism also helps in the smooth implementation of community initiative projects by addressing any potential concerns pro actively. 1. Deployment of Local Employees: As part of the GRM, the organization has strategically deployed local employees who are familiar with the community's cultural and social dynamics. These employees actively visit the community to engage in meaningful interactions, building rapport and understanding the needs and concerns of the people. This personal approach reinforces trust and demonstrates the organization's commitment to the community's well-being. 2. Proactive Community Interaction: Regular and consistent visits by local employees allow the organization to stay connected with the community's pulse. These interactions provide valuable insights into the community's expectations and any emerging concerns. By addressing issues early, the organization fosters a harmonious relationship with the community. 3. Current Status of Grievances: Based on the ongoing engagement and feedback from the community, the organization has not encountered any specific grievances so far. This indicates that the GRM is functioning effectively, and the community feels positively about the organization's presence and operations.

17. Commodity Price Risk

The major raw materials for Shrimp Feed manufacturing are fish meal, soya DOC (De-oiled Cake) and wheat flour. Company has a policy of planning for raw material requirement for coming 3 months based on estimated sales. Accordingly, raw materials like fish meal and soya DOC are procured after considering the availability of these raw materials as both the raw materials are seasonal products. Wheat flour having very low shelf life being perishable is purchased regularly. However, as a policy Company does not keep more than 90 days of stock of any indigenously available raw materials. This ensures availability of raw material for the culture season and ensures price stability during negative raw material price movements.

18. Plant Locations

The Shrimp Feed Production Plants are located at Kovvur, Vemuluru and Bandapuram West Godavari District of Andhra Pradesh and Plants located at Valsad, Balda Village, Pardi Tq., Gujarat. All the plants are ISO 9001:2015 (for Quality Management Systems) Compliant, certified for implementing Best Aquaculture Practices (BAP) by Global Aquaculture Alliance, USA and Shrimp Hatchery in

FINANCIALS
2024-25**

INDEPENDENT AUDITORS' REPORT

To the Members of Avanti Feeds Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of **Avanti Feeds Limited** ("the Company") which comprise the Balance Sheet as at 31 March, 2025, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date and notes to the financial statements, including a summary of material accounting policies and other explanatory information (herein after referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March, 2025, its profit including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Companies Act, 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S. No	Key Audit Matters	Auditor's Response
1.	Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances in view of Ind AS 115 "Revenue from Contracts with Customers" (revenue accounting standard) The application of the revenue accounting standard involves certain key judgements relating to identification of the contract with a customer, identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized when a performance obligation is satisfied. Additionally, revenue accounting standard contains disclosures which involves collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date. Refer Note 2.4c and 21 to the Financial Statements	Principal Audit Procedures We assessed the Company's process to identify the impact of revenue accounting standard. Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows: • We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards. • Selected a sample of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, performance and inspection of evidence in respect of operation of these controls. • Tested the relevant information technology systems' access and change management controls relating to contracts and related information used in recording and disclosing revenue in accordance with the revenue accounting standard. • Selected a sample of continuing and new contracts and performed the following procedures: - Read, analysed and identified the distinct performance obligations in these contracts. - Compared these performance obligations with that identified and recorded by the Company. - Considered the terms of the contracts to determine the transaction price including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration. - Samples in respect of revenue recorded upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services, were tested using a combination of sales orders, gate-in and gate-out passes, shipping bills including packing lists, subsequent customs invoicing, bills of lading, customer acceptances and historical trend of collections and disputes. Performed analytical procedures for reasonableness of revenues disclosed by type and service offerings. We reviewed the collation of information and the logic of the report generated from the IT system used to prepare the disclosure relating to the periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.

S. No	Key Audit Matters	Auditor's Response
2.	The Company enters into various financial instruments such as investments in quoted and unquoted equity instruments, quoted mutual funds and quoted non-convertible debentures. As at 31 March, 2025, financial instruments carried at amortised cost/fair value through profit and loss totalled ₹77,699.86 Lakhs (current investments of ₹77,177.35 Lakhs and non-current investments of ₹1522.51 Lakhs) as disclosed in Note 6 to the Standalone Financial Statements. These financial instruments are recorded at fair value as required by the relevant accounting standard. We have focused on this area due to the complexities associated with the valuation and accounting for these financial instruments.	Our procedures included but were not limited to: • Obtaining an understanding of the internal risk management procedures and the systems and controls associated with the origination and maintenance of complete and accurate information relating to financial instruments; • Utilizing our treasury experts, we also tested on a sample basis the existence and valuation of derivative contracts as at 31 March, 2025. Our audit procedures focused on the integrity of the valuation models and the incorporation of the contract terms and the key assumptions, including future price assumptions and discount rates; and • Obtaining an understanding of key financial instrument contract terms to assess the appropriateness of accounting reflected in the financial report. • We have also assessed the appropriateness of the disclosures included in Note 37 to the Standalone Financial Statements
3.	Inventory valuation and existence: At the balance sheet date, the value of inventory amounted to ₹48,683.05 Lakhs representing 17.48% of total assets. Inventories were considered as key audit matter due to the size of the balance and because inventory valuation involves management judgment. As described in Note 2.4i to the Standalone Financial Statements, inventories are carried at the lower of cost and net realizable value on a weighted average basis The Company has segment specific procedures for identifying risk for obsolescence and measuring inventories at the lower of cost and net realizable value	To address the risk for material error on inventories, our audit procedures included amongst other: • Assessing the compliance of Company's accounting policies over inventory with applicable accounting standards. • Observed the stock take process at Factory locations during the year and at the end of the year and undertook our test counts where ever necessary. • Compared the Quantities we counted with Quantities recorded. • Analysing the Inventory Ageing reports and Net realizable value of inventories • Tested that inventory on hand at the end of the period was recorded at the lower of cost and net realizable value by testing a sample of inventory items to the most recent retail price.

S. No	Key Audit Matters	Auditor's Response
4	Purchase of Raw Material: Purchase of Raw material is being considered as a key audit matter as the Company procures its principle raw materials from the suppliers and the price of the same is highly volatile to the market conditions. Based upon the production requirements and after considering the tentative prices, the management decides the raw materials which have to be procured. The total cost of raw material purchased by the entity for the financial year 2024-25 is ₹3,31,559.06 Lakhs.	Following are some of the substantive tests that were part of our auditing procedures in addition to testing the internal controls' design and effectiveness: Internal controls relating to the purchase of raw materials and payments made to the suppliers of the raw materials on the basis of source documentation have been assessed in terms of their design and tested in terms of their implementation. We have performed test of controls over procurement procedures to assess the operating effectiveness of the controls placed in recognition of the cost of material consumption. We have conducted test of details through correlating the raw materials procured and the raw material consumed as per the production and stock reports. Understood the credit terms for payments to suppliers and assessed whether the same have been complied with.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report and Shareholder's Information, but does not include the Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility and Those charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134 (5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant

to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether these Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143 (3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the

Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the **"Annexure-A"**, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in paragraph 2h(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
 - c) The balance sheet, the statement of profit and loss including other comprehensive income, the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid Standalone Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors as on 31 March, 2025, taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2025, from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in **"Annexure-B"**. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i) The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements- Refer Note 30 to the Standalone Financial Statements.
 - ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv)
 - a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediaries shall, whether, directly or indirectly lend or invest in other person or entity identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other person or entity identified in any manner whatsoever by or on behalf of the Funding Parties ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c) Based on the audit procedures that were considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
 - v)
 - a) The final dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend.
 - b) The Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.
 - vi) The reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 is applicable from 1 April, 2023.

Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended 31 March, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except in the case of records of property, plant and equipment, payroll and inventory of finished goods which are being maintained manually.

Further, the feature of recording audit trail(edit log)facility was not available at the database level to log any direct data changes for the accounting software used for maintaining the books of account of the Company.

During the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

"ANNEXURE – A" TO THE INDEPENDENT AUDITORS' REPORT

on the Standalone Financial Statements of Avanti Feeds Limited for the year ended 31st March, 2025.

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- i) In respect of the Company's Property, Plant and Equipment (including right-of-use assets) and Intangible Assets:
 - a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.
The Company has maintained proper records showing full particulars of intangible assets.
 - b) As explained to us, the management has physically verified a substantial portion of the Property, Plant and Equipment during the year and in our opinion frequency of verification is reasonable having regard to the size of the Company and the nature of its assets. The discrepancies noticed on physical verification of Property, Plant and Equipment as compared to the books of account were not material and have been properly dealt with in the books of accounts.
 - c) In our opinion and according to the information and explanations given to us, all the title deeds of immovable properties are held in the name of the Company. In respect of immovable properties of land and buildings that have been taken on lease and disclosed as assets in the financial statements, the lease agreements are in the name of the Company, where the Company is the lessee in the agreement.
 - d) The Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
 - e) No proceedings have been initiated during the year or are pending against the Company as at 31 March, 2025 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii)
 - a) According to the information and explanations given to us, the inventories have been physically verified by the management during the year. In our opinion, the frequency of verification is reasonable and the coverage and procedure of such verification by the management is appropriate. The discrepancies identified during such verification were not more than 10% in the aggregate for each class of inventory as compared to the books of account.
 - b) The Company has been sanctioned working capital limits in excess of five crore rupees from banks on the basis of security of current assets. The quarterly returns or statements filed by the Company with such banks are in agreement with the books of account of the Company.
- iii) According to the information and explanations given to us, in our opinion, the investments made by the Company are prima facie not prejudicial to the interest of the Company.

The Company has not provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, reporting under clause 3 (iii)(a) to 3 (iii)(f) of the Order are not applicable.

- iv) There are no loans, guarantees and securities in respect of which provisions of sections 185 of the Act are applicable. Investments in respect of which provisions of section 186 of the Act are applicable, have been complied with by the Company.
- v) According to the information and explanations given to us, the Company has neither accepted any deposits from the public nor accepted any amount which are deemed to be deposits within the meaning of Section 73 and 76 or any other relevant provisions of the Act and the rules framed there under. Hence, reporting under clause 3 (v) of the Order is not applicable.
- vi) We have broadly reviewed the books of account and records maintained by the Company pursuant to the Rules made by the Central Government of India for the maintenance of cost records prescribed under sub-section(1) of section 148 of the Act, related to generation of electricity and are of the opinion that prima facie, the prescribed accounts and records have been maintained. We have however, not made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii) In respect of Statutory dues:
- a) The Company is regular in depositing with appropriate authorities, undisputed statutory dues including provident fund, employees state insurance, income-tax, goods and service tax, value added tax, duty of customs, cess and other statutory dues applicable to it. According to the information and explanations given to us, no undisputed amounts payable in respect of such statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.
- b) According to the information and explanations given to us, there are no dues of provident fund, employees state insurance, goods and service tax, cess and other statutory dues which have not been deposited on account of any dispute. The details of dues of value added tax, duty of customs and Income Tax Act that have not been deposited on account of any dispute, are as follows:

Name of the Statute	Nature of the Dues	Amount 'Rs' in Lakhs	Period to which the amount relates	Forum where dispute is pending
Madhya Pradesh VAT Act, 2002	Sales tax (MP VAT demand for soya transactions in 2005-06)	29.22	2005-2006	High Court of Madhya Pradesh
Customs Act, 1962	Customs duty	60.82	2009-2010 to 2011-2012	CESTAT, Chennai
Customs Act, 1962	Customs duty	11.44	2017-2018 & 2018-2019	The Commissioner of Customs (Appeals), JNCH- Navaseva, Mumbai

- viii) According to information and explanation given to us, there were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
- ix)
- a) Based on our audit procedures and as per the information and explanations given by the management, we are of the opinion that the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to banks. There are no dues to financial institutions or government.
- b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

- c) The Company has not taken any term loan during the year and there are no outstanding term loans at the beginning of the year and hence, reporting under clause 3 (ix)(c) of the Order is not applicable.
 - d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
 - e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries or associates. The Company does not have any joint venture.
 - f) The Company has not raised any loans during the year on the pledge of securities held in its subsidiaries or associates and hence reporting under clause 3 (ix)(f) of the Order is not applicable.
- x)
- a) According to the information and explanations given to us, the Company has not raised any money during the year by way of public offer (including debt instruments) and hence reporting under clause 3 (x)(a) of the Order is not applicable.
 - b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3 (x)(b) of the Order is not applicable.
- xi)
- a) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and as per the information and explanations given by the management, we report that, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
 - b) During the year, no report under sub-section (12) of section 143 of the Act has been filed by secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
 - c) We have taken into consideration the whistle blower complaints received by the Company during the year (and upto the date of this report), while determining the nature, timing and extent of our audit procedures.
- xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii) According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- xiv)
- a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
 - b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with its directors or

persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

xvi)

- a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3 (xvi) (a), (b) and (c) of the Order is not applicable.
- b) In our opinion, there is no Core Investment Company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3 (xvi) (d) of the Order is not applicable.

xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.

xviii) There has been no resignation of the statutory auditors of the Company during the year.

xix) On the basis of the financial ratios disclosed in Note 39 to the Standalone financial statements, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

xx)

- a) In our opinion and according to the information and explanations given to us, there is no unspent amount towards Corporate Social Responsibility requiring to transfer to a Fund specified in Schedule-VII to the Companies Act in compliance with second proviso to sub-section (5) of section 135 of the said Act. Accordingly, reporting under clauses 3 (xx) (a) of the Order are not applicable.
- b) In respect of ongoing projects, the Company has transferred unspent CSR amount as at the end of the financial year, to a Special account within a period of 30 days from the end of the said financial year in compliance with the provision of section 135 (6) of the Companies Act, 2013.

"ANNEXURE - B" TO THE INDEPENDENT AUDITORS' REPORT REPORT

on the Financial Statements of Avanti Feeds Limited for the year ended
31st March, 2025

Report on the Internal Financial Controls over financial reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

(Referred to in paragraph 2 (f)) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

We have audited the internal financial controls over financial reporting of **Avanti Feeds Limited** ("the Company") as of 31 March, 2025 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone Financial Statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2025, based on the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1 Corporate information

Avanti Feeds Limited, ("the Company") is a listed public company incorporated under "The Companies Act, 1956", with its registered office in Visakhapatnam, Andhra Pradesh. Avanti Feeds Limited has started its commercial operations in 1993 and now stands as the leading manufacturer of Shrimp Feed, shrimp seed and generation of wind power.

The financial statements are approved for issue by the Company's Board of Directors on 28 May, 2025.

2 Basis of preparation of financial statements and material accounting policies:

2.1 Basis of preparation and measurement

i) Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standard (Ind AS), the provisions of The Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued there after.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use

ii) Basis of measurement

The financial statements have been prepared under the historical cost convention on the accrual basis except for the following financial instruments which are measured at fair values:

- certain financial assets and liabilities that are measured at fair value
- biological assets - measured at fair value; and
- defined benefit plans- plan assets measured at fair value

iii) Current Versus Non-Current classification

The company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised the asset, or intends to sell or consume it, in its normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period or
- Cash and cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in its normal operating cycle
- It is held for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

2.2 Measurement of fair values

The Company's accounting policies and disclosures require financial instruments to be measured at fair values. The Company has an established control framework with respect to the measurement of fair values.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

2.3 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements. The areas involving critical estimates or judgements are;

- Estimation of defined benefit obligation
- Useful life of property, plant and equipment
- Fair value of biological asset

2.4 Significant accounting policies

a. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Chairman and Managing Director (CMD) of the Company has been identified as the chief operating decision maker for the segment information presented.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

b. Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of its primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupees (INR), which is the Company's functional and presentation currency.

(ii) Transactions and translations

Foreign-currency denominated monetary assets and liabilities are translated into the relevant functional currency at exchange rates in effect at the Balance Sheet date. The gains or losses resulting from such translations are included in net profit in the Statement of Profit and Loss. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction.

Transaction gains or losses realized upon settlement of foreign currency transactions are included in determining net profit for the period in which the transaction is settled. Revenue, expense and cash-flow items denominated in foreign currencies are translated into the relevant functional currencies using the exchange rate in effect on the date of the transaction.

c. Revenue recognition

The Company earns revenue primarily from sale of Shrimp Feed. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, we apply the following five step approach:

1. identify the contract with a customer,
2. identify the performance obligations in the contract,
3. determine the transaction price,
4. allocate the transaction price to the performance obligations in the contract, and
5. recognize revenues when a performance obligation is satisfied.

At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgement to determine whether each product or services promised to a customer are capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligation based on their relative stand-alone selling price or residual method. Stand-alone selling prices are determined based on sale prices for the components when it is regularly sold separately, in cases where the Company is unable to determine the stand-alone selling price, the Company uses third-party prices for similar deliverables or the company uses expected cost plus margin approach in estimating the stand-alone selling price.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold is net of variable consideration on account of various discounts and schemes offered by the company as part of the contract.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

d. Government grant

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the Statement of Profit and Loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to Statement of Profit and Loss on a straight-line basis over the expected lives of the related assets and presented within other income.

Loans received from government in the nature of interest free deferred sales taxes are treated in the nature of government grant. The difference between the fair value of the loan and the amount of loan received is accounted as government grant. The government grant is recognised in the Statement of Profit and Loss over the period of loan.

e. Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Current and deferred tax is recognised in Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

f. Ind AS 116 – Leases

As a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

g. Impairment of assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash flows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

h. Cash and cash equivalents

Cash and cash equivalents in the balance sheet includes cash at bank and cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet. For the purpose of statement of cash flows, cash and cash equivalents cash an short term deposits as defined above is net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

i. Inventories

Inventories are valued at lower of cost and net realizable value. Cost of raw materials, components and stores and spares is determined on a weighted average basis.

Cost of raw materials comprise of cost of purchase. Cost of work-in-progress and finished goods comprises direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on a weighted average basis. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

j. Biological assets

The Company recognises biological assets only when, the Company controls the assets as a result of past events, it is probable that future economic benefits associated with such assets will flow to the Company. Biological assets of the Company are in the nature of Consumable Biological Assets. It is bifurcated into Brood Stock, (the Parents) and harvested species which undergo biological transformation under different stages as Nauplius, Zoea, Mysis and Post Larvae. The Company sells the biological assets harvested from brood stock at Nauplius and Post Larvae Stages. The Brood Stock has a maximum useful life of 6 months for laying eggs and thereafter these are destroyed.

The valuation of the Brood stock biological assets are determined on the following basis: Brood stock are used for captive consumption or to support farmers, it can not be sold before the end of its useful life and as such, there is no active market. Other references to market prices such as market prices for similar assets are also not available due to the uniqueness of the breed. Valuation based on a discounted cash flow method is considered to be unreliable given the uncertainty with respect to mortality rates and production. Consequently, brood stock and Shrimp seed (Different stages) are measured at cost, less depreciation and impairment losses.

The transmission phase from Nauplius to Zoea and Mysis are not considered as significant transformation of biological asset and hence Zoea and Mysis are not valued as per Ind AS - 41.

The Company recognises other biological assets at the fair value or cost of the assets that can be measured reliably. Expenditure incurred on biological assets are measured on initial recognition and at the end of each reporting period at its fair value less costs to sell. The gain or loss arising from a change in fair value less costs to sell of biological assets are included in Statement of Profit and Loss for the period in which it arises.

Management estimates the fair value less costs to sell of biological assets, taking into account the most reliable evidence available at each reporting date. The future realization of these biological assets may be affected by their survival rate, age and / or other market-driven changes that may reduce the future economic benefits associated with such assets. The fair value is arrived at based on the observable market prices of biological assets adjusted for cost to sells, as applicable.

k. Investments and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in Statement of Profit and Loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in Statement of Profit and Loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the Statement of Profit and Loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in Statement of Profit and Loss as other income when the Company right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/(losses) in the Statement of Profit and Loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iii) Impairment of financial assets

The Company assesses on a forward booking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 37 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected life time losses to be recognised from initial recognition of the receivables.

(iv) Derecognition of financial assets

A financial asset is derecognised only when

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

(v) Income recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

(vi) Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

l. Derivatives

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period and are included in other gains/(losses).

m. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counter party.

n. Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation on tangible assets is calculated on a straight-line basis so as to expense the cost less residual value over the estimated useful life's prescribed and in the manner laid down under Schedule II to the Companies Act, 2013. The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the effect of any change in estimate accounted for on a prospective basis. Assets costing individually rupee equivalent of INR 5,000 or less are fully charged off on purchase. Depreciation for assets purchased / sold during the period is proportionately charged.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains or losses arising from disposal of property, plant and equipment which are carried at cost are recognised in the Statement of Profit and Loss.

o. Intangible assets

Intangible assets that are acquired are recognized at cost initially and carried at cost less accumulated amortization and accumulated impairment loss, if any.

(i) Computer software

Computer software are stated at cost, less accumulated amortisation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

(ii) Amortisation methods and periods

Intangible assets with finite useful live are amortized over their respective individual estimated useful lives (6 years in case of computer softwares) on a straight line basis.

p. Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the year end which are unpaid. The amounts are unsecured and are usually paid as per mutually agreed terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

q. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

r. Borrowing Cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

s. Provisions, Contingent liabilities and Contingent assets

Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provisions due to the passage of time is recognized as interest expense.

Contingent liabilities

Contingent Liabilities are disclosed, unless the possibility of outflow of resources is remote, when there is

- A possible obligation that arises from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or
- A present obligation that arises from past events whether it is either not probable that an outflow of resources will be required to settle the obligation or reliable estimate of the amount cannot be made

The company has disclosed the same as per the requirements of Ind AS 37

Contingent assets

A contingent asset is a possible asset that arises from past events and whose existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Company does not recognize the contingent asset in its standalone financial statements since this may result in the recognition of income that may never be realised. Where an inflow of economic benefits are probable, the company disclose a brief description of the nature of contingent assets at the end of the reporting period. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and the Company recognize such assets.

t. Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity; and
- (b) defined contribution plans such as Provident fund, Employee State Insurance and Superannuation fund

Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefits expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

Defined contribution plans

The Company pays provident fund contributions to publicly administered Provident funds and Employee State Insurance funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefits expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available. Superannuation Scheme (administered through a 'Superannuation Trust' formed by the Company) is a defined contribution plans, where the Company has no further obligations under the plan beyond its monthly / quarterly contributions.

(iv) Bonus plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

u. Contributed Equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

v. Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at end of the reporting period.

w. Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

x. Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs as per the requirement of Schedule-III, unless otherwise stated.

2.5 Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31st March 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Name of the Statute	Nature of the Dues	Amount	Period to which the amount relates	Forum where dispute is pending
Madhya Pradesh VAT Act, 2002	Sales tax (MP VAT demand for soya transactions in 2005-06)	29.22	2005-2006	High Court of Madhya Pradesh
Customs Act, 1962	Customs duty	60.82	2009-2010 to 2011-2012	CESTAT, Chennai
Customs Act, 1962	Customs duty	11.44	2017-2018 & 2018-2019	The Commissioner of Customs (Appeals), JNCH- Navaseva, Mumbai
	Total	101.48		

- (i) The Company purchased soya bean in the year 2004-05, converted the same in to DOC in 2005-06 and used some part for own consumption in manufacturing of shrimp feed and some part was exported. The resultant soya oil was sold locally. The Sales Tax Act pertaining to soya bean processing and soya oil sale was amended with effect from 13.12.2004 and Commercial Tax department took the view that the soya bean purchased prior to 13.12.2004 will attract tax at old rates and a demand to ₹29.22 Lakhs was raised. This is being contested by the Company in the High Court of Madhya Pradesh.
- (ii) Company is importing Squid Liver Powder (SLP) which was one of the raw materials for manufacturing of shrimp feed. SLP was imported by the Company under raw material classification. However, Customs has disputed our claim and demanding duty applicable for import of complete feed. Company appealed against the order of CESTAT, Chennai, before Madras High Court.

The Company is contesting the demands and the management, including its tax advisors, believe that its position will likely be upheld in the appellate process. No tax expense has been accrued in the financial statements for the tax demand raised. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

- iii) The Company has purchased spares like pellet dies etc. in the year 2017-2018 & 2018-2019 under stores & spares classification and paid IGST @12%. In the year 2022-23 customs has reclassified these items and charged IGST @18% and asked the Company to pay differential tax along with Interest. The Company has paid the differential amount of GST along with interest and asked waiver for fine and penalty. But the customs department has raised a fine ₹7,00,000/- and penalty ₹4,44,140/-. Aggrieved by the demand the Company has filed an appeal with the Commissioner of Customs (Appeals), Maharashtra.

The Company is contesting these demands and believes that its position will likely be upheld in the appellate process. Accordingly, the Company has not accounted the fine and penalty raised by the GST authorities. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

(v) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Particulars	Change in assumption			Impact on defined benefit obligation				
				Increase in assumption			Decrease in assumption	
	31 st March, 2025	31 st March, 2024		31 st March, 2025	31 st March, 2024		31 st March, 2025	31 st March, 2024
Discount rate	1.00%	1.00%	Decrease by	225.15	186.30	Increase by	264.85	218.95
Attrition rate	5.00%	5.00%	Decrease by	114.65	85.71	Increase by	161.04	120.29
Salary escalation rate	10.00%	1.00%	Increase by	253.88	210.73	Decrease by	220.85	183.37

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

(vi) The major categories of plan assets are as follows

Particulars	31 st March, 2025	31 st March, 2024
Funds managed by SBI Life Insurance Company Limited	2,816.91	2,378.54
Total	2,816.91	2,378.54

(vii) Risk exposure

Through its defined benefit plan, the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility: The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets under perform this yield, this will create a deficit. The Company's plan assets are insurer managed funds and are subject to less material risk.

Changes in bond yields: A decrease in bond yields will increase plan liabilities and the Company ensures that it has enough reserves to fund the liability.

(viii) Defined benefit liability and employer contributions

Expected contributions to define benefit plans for the year ending 31 March, 2026 is ₹449.81 Lakhs

(i) Fair value hierarchy

The carrying amount of the current financial assets and current financial liabilities are considered to be same as their fair values, due to their short term nature. In absence of specified maturity period, the carrying amount of the non-current financial assets and non-current financial liabilities such as security deposits, are considered to be same as their fair values.

The fair value of quoted equity investments, has been classified as Level 1 in the fair value hierarchy as the fair value has been determined on the basis of market value. The fair value of unquoted equity instruments has been classified as Level 2 in the fair value hierarchy as the fair value has been determined on the basis of discounted cash flows. The fair value of mutual funds is classified as Level 2 in the fair value hierarchy as the fair value has been determined on the basis of Net Assets Value (NAV) declared by the mutual fund. The fair value of Financial derivative contracts has been classified as Level 2 in the fair value hierarchy as the fair value has been determined on the basis of mark-to-market provided by the Bank from which the contract has been entered. The corresponding changes in fair value of investment is disclosed as 'Other Income'.

37. Financial risk management

The Company activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the Company is exposed to and how the Company manages the risk.

Risk	Exposure arising from	Measurement	Management
Credit Risk	Cash and cash equivalents, trade receivables, security deposits, other bank deposits and loans	Ageing analysis Credit ratings of customers and subsidiaries	Credit monitoring for customers. Diversification of bank deposits.
Liquidity Risk	Borrowings	Cash flow forecasts managed by Joint Managing Director (JMD).	Working capital management by General Manager in under the guidance of Joint Managing Director. The excess liquidity is channelised through mutual funds and bank deposits.
Market Risk - interest rate	Long term borrowings at variable rate	Sensitivity analysis	Capital is managed by Joint Managing Director. The capital requirements are managed by analysing the funds requirement and budgets in conjunction with the strategic plan.
Market Risk - Price risk	From investment in equity shares	Market and price sensitivity analysis.	The portfolio is not large and the risk is not significant.
Market Risk - foreign exchange rate	Future commercial transactions (receivable / payables)	Cash flow forecasting Sensitivity analysis	Forward foreign exchange contracts

The Company's risk management is carried out by the JMD under policies approved by the Risk Management Committee a sub-committee of the Board of Directors. The Committee provides guiding principles for overall risk management, as well as policies covering specific areas such as interest rate risk, credit risk and investment of excess liquidity.

Credit Risk

(i) Credit risk management

Credit risk arises from cash and cash equivalents, loans, security deposits and deposits with banks and financial institutions, as well as credit exposures to customers including outstanding receivables.

Credit risk is managed by the Marketing General Manager of the Avanti Feeds Limited. The Company has few customer with most of them being foreign customers. The Company provides a credit period of 60-90 days which is in line with the normal industry practice.

The Marketing GM undertakes the credit analysis of each customer before transacting. The finance team under the guidance of Marketing GM also periodically review the credit rating of the customers and follow up on long outstanding invoices.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

(All amounts in Lakhs in Indian Rupees, unless otherwise stated)

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an on going basis through out each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. The below factors are considered:

- external credit rating (as far as available)
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations.
- actual or expected significant changes in the operating results of the borrower.
- significant increase in credit risk on other financial instruments of the same borrower.
- Significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of the borrower in the Company and changes in operating results of the borrower.

Macro economic information (such as regulatory changes, market interest rate or growth rates) is incorporated as part of the internal rating model. In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 180 days past due.

A default on a financial asset is when the counter party fails to make contractual payments within 365 days of when they fall due. This definition of default is determined by considering the business environment in which the entity operates and other macro-economic factors.

(ii) Provision for expected credit losses

The Company provides for expected credit loss based on the following:

Category	Description of category	Basis for recognition of expected credit loss provision		
		Investments	Loans and deposits	Trade receivables
High quality assets, low credit risk	Assets where there is low risk of default and where the counter party has sufficient capacity to meet the obligations and where there has been low frequency of defaults in the past	12-month expected credit losses	12-month expected credit losses	Life time expected credit losses
Medium risk, moderate credit risk	Assets where the probability of default is considered moderate, counter party where the capacity to meet the obligation is not strong	12-month expected credit losses	12-month expected credit losses	Life time expected credit losses
Doubtful assets, credit impaired	Assets are written off when there is no reasonable expectation of recovery, such as a debt or declaring bankruptcy or failing to engage in a payment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss	Asset is written off

Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Joint Managing Director monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows and any excess/short liquidity is managed in the form of current borrowings, bank deposits and investment in mutual funds.

38. Capital management

a) Risk Management

The Company's objectives when managing capital are to

- > safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and
- > Maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. The Company has been maintaining a steady dividend.

The Company's capital structure is largely equity based. It monitors capital on the basis of the following gearing ratio: Net debt divided by Total 'equity' (as shown in the balance sheet).

The gearing ratios were as follows:

Particulars	As at 31 st March, 2025	As at March 31 st , 2024

INDEPENDENT AUDITORS' REPORT

To the Members of
Avanti Feeds Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of **Avanti Feeds Limited** ('the Company') and its subsidiaries (collectively referred to as "the Group"), and its associate, which comprise the Consolidated Balance Sheet as at 31 March, 2025, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date and notes to the Consolidated Financial Statements, including a summary of material accounting policies and other explanatory information (herein after referred to as "the Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2025, the consolidated profit including other comprehensive income, consolidated statement of changes in equity and the consolidated statement of cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Companies Act, 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated Financial Statements of the current period. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

S. No	Key Audit Matters	Auditor's Response
1.	Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances in view of Ind AS 115 "Revenue from Contracts with Customers" (revenue accounting standard) The application of the revenue accounting standard involves certain key judgements relating to identification of the contract with a customer, identification of distinct performance obligations, determination of transaction price of the identified performance obligations, the appropriateness of the basis used to measure revenue recognized when a performance obligation is satisfied. Additionally, revenue accounting standard contains disclosures which involves collation of information in respect of disaggregated revenue and periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date. Refer Note 2.5c and 23 to the Consolidated Financial Statements	Principal Audit Procedures We assessed the Company's process to identify the impact of revenue accounting standard. Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows: • We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards. • Selected a sample of continuing and new contracts, and tested the operating effectiveness of the internal control, relating to identification of the distinct performance obligations and determination of transaction price. We carried out a combination of procedures involving enquiry and observation, performance and inspection of evidence in respect of operation of these controls. • Tested the relevant information technology systems' access and change management controls relating to contracts and related information used in recording and disclosing revenue in accordance with the revenue accounting standard. • Selected a sample of continuing and new contracts and performed the following procedures: - Read, analyzed and identified the distinct performance obligations in these contracts. - Compared these performance obligations with that identified and recorded by the Company. - Considered the terms of the contracts to determine the transaction price including any variable consideration to verify the transaction price used to compute revenue and to test the basis of estimation of the variable consideration. - Samples in respect of revenue recorded upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services, were tested using a combination of sales orders, gate-in and gate-out passes, shipping bills including packing lists, subsequent customs invoicing, bills of lading, customer acceptances and historical trend of collections and disputes. • Performed analytical procedures for reasonableness of revenues disclosed by type and service offerings. • We reviewed the collation of information and the logic of the report generated from the IT system used to prepare the disclosure relating to the periods over which the remaining performance obligations will be satisfied subsequent to the balance sheet date.

S. No	Key Audit Matters	Auditor's Response
2.	The Company enters into various financial instruments such as investments in quoted and unquoted equity instruments, quoted mutual funds and quoted non-convertible debentures. As at 31 March, 2025, financial instruments carried at amortized cost/fair value through profit and loss totaled ₹82,274.07 Lakhs (current investments of ₹81,273.27 Lakhs and non-current investments of ₹1,000.80 Lakhs) as disclosed in Note 7 to the Consolidated Financial Statements. These financial instruments are recorded at fair value as required by the relevant accounting standard. We have focused on this area due to the complexities associated with the valuation and accounting for these financial instruments.	Our procedures included but were not limited to: - Obtaining an understanding of the internal risk management procedures and the systems and controls associated with the origination and maintenance of complete and accurate information relating to financial instruments; - Utilizing our treasury experts, we also tested on a sample basis the existence and valuation of derivative contracts as at 31 March, 2025. Our audit procedures focused on the integrity of the valuation models and the incorporation of the contract terms and the key assumptions, including future price assumptions and discount rates; and - Obtaining an understanding of key financial instrument contract terms to assess the appropriateness of accounting reflected in the financial report. - We have also assessed the appropriateness of the disclosures included in Note 40 to the Consolidated Financial Statements.
3.	Inventory valuation and existence: At the balance sheet date, the value of inventory amounted to ₹88,073.24 Lakhs representing 23.91% of total assets. Inventories were considered as key audit matter due to the size of the balance and because inventory valuation involves management judgment. As described in note 2.5i to the Consolidated Financial Statements, inventories are carried at the lower of cost and net realizable value on a weighted average basis. The Company has segment specific procedures for identifying risk for obsolescence and measuring inventories at the lower of cost and net realizable value	To address the risk for material error on inventories, our audit procedures included amongst other: - Assessing the compliance of Company's accounting policies over inventory with applicable accounting standards. - Observed the stock take process at Factory locations during the year and at the end of the year and undertook our test counts where ever necessary. - Compared the Quantities we counted with Quantities recorded. - Analysing the Inventory Ageing reports and Net realizable value of inventories. - Tested that inventory on hand at the end of the period was recorded at the lower of cost and net realizable value by testing a sample of inventory items to the most recent retail price.

S. No	Key Audit Matters	Auditor's Response
4	Purchase of Raw material: Purchase of Raw material is being considered as a key audit matter as the Company procures its principle raw materials from the suppliers and the price of the same is highly volatile to the market conditions. Based upon the production requirements and after considering the tentative prices, the management decides the raw materials which have to be procured. The total cost of Raw material purchased by the Entity for the financial year 2024-25 is ₹4,25,815.97 Lakhs.	The following are some of the substantive tests that were part of our auditing procedures in addition to testing the internal controls design and effectiveness.: - Internal controls relating to the purchase of raw materials and payments made to the suppliers of the raw materials on the basis of source documentation have been assessed in terms of their design and tested in terms of their implementation. - We have performed test of controls over procurement procedures to assess the operating effectiveness of the controls placed in recognition of the cost of material consumption. - We have conducted test of details through correlating the raw materials procured and the raw material consumed as per the production and stock reports. - Understood the credit terms for payments to suppliers and assessed whether the same have been complied with.

Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report and Shareholder's Information, but does not include the Consolidated Financial Statements, Standalone financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its associate in accordance with the accounting principles generally accepted in India,

including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error which have been used for the purpose of preparation of the Consolidated financial statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Board of Directors of the companies included in the Group and of its associate are responsible for assessing the ability of the Group and of its associate to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associate are responsible for overseeing the financial reporting process of the Group and of its associate.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether these Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143 (3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company, its subsidiary companies and associate company which are companies incorporated in India, have adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Financial Statements.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements / financial information of three subsidiaries included in the consolidated financial results, whose financial statements / information reflect total assets of ₹1,05,178.92 Lakhs as at March 31, 2025 and total revenues of ₹1,22,201.97 Lakhs for the year ended 31 March, 2025, total net profit after tax of ₹6,891.11 Lakhs for year ended March 31, 2025, total comprehensive income of ₹6,858.49 Lakhs for the year ended 31 March, 2025 and net cash flows of ₹(129.66) Lakhs for the year ended 31 March, 2025, as considered in the Statement. These financial statements / financial information have been audited/ reviewed, as applicable, by other auditors whose reports have been furnished to us by the Management and our opinion and conclusion on the Statement, and our report in terms of sub-sections (3)

and (11) of Section 143 of the Act, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, is based solely on the reports of the other auditors and the procedures performed by us as stated under Auditor's Responsibilities section above.

The consolidated financial results also include the Group's share of net profit after tax and total comprehensive income of ₹25.17 Lakhs for the year ended March 31, 2025, as considered in the Statement, in respect of an associate, whose financial statements / financial information have not been audited by us. This financial statements / financial information are unaudited and have been furnished to us by the Management and our opinion and conclusion on the Statement, in so far as it relates to the amounts and disclosures included in respect of this associate, is based solely on such unaudited financial statements/ financial information. In our opinion and according to the information and explanations given to us by the Board of Directors, this financial statements / financial information are not material to the Group.

Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "**Annexure-A**", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books, except for the matters stated in paragraph 2h (vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash flows dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the Consolidated Financial Statements.
 - d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended.
 - e) On the basis of the written representations received from the directors of the Company as on 31 March, 2025 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary companies and associate companies incorporated in India, none of the Directors of the Group companies and associate companies incorporated in India is disqualified as on 31 March, 2025 from being appointed as a Director of that company in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Group and its associate and the operating effectiveness of such controls, refer to our separate

report in “**Annexure-B**” which is based on the auditor’s reports of the Company, its subsidiary companies and associate company incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the internal financial control over financial reporting of those companies, for reasons stated therein.

- g) With respect to the other matters to be included in the Auditor’s Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company, its subsidiary companies and associate company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- h) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i) The Consolidated Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group and its associate. Refer Note 33 to the Consolidated Financial Statements;
 - ii) The Group and its associate did not have any material foreseeable losses on long-term contracts including derivative contracts.
 - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Group and its associate incorporated in India.
 - vi) a) The respective managements of the Group and its associate which are companies incorporated in India, have represented to us that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested either from borrowed funds or share premium or any other sources or kind of funds by the Group or its associate to or in any other person or entity, including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediaries shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the respective Group companies or its associate (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - b) The respective managements of the Group and its associate, which are companies incorporated in India, have represented to us that, to the best of its knowledge and belief, no funds which are material either individually or in the aggregate have been received by the respective Parent Company or its subsidiaries from any person or entity, including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Group companies or its associate shall, whether, directly or indirectly, lend or invest in other person or entity identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
 - c) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

- v. a) The final dividend paid by the Company, one of its subsidiary companies and one of its associate companies during the year in respect of the same declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend.
 - b) The Board of Directors of the Company, one of its subsidiary companies and its associate company have proposed final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.
- vi. The reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 is applicable from April 1, 2023.

Based on our examination which included test checks, and as communicated by the respective auditors of the three subsidiaries and associate company, the Holding Company and its subsidiary companies (Holding Company and its subsidiaries together referred to as "the Group") incorporated in India have used accounting softwares for maintaining its books of account, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the respective softwares except

- a) In case of the Holding Company and one of the subsidiary (Avanti Frozen Foods Private Limited) records of property, plant and equipment, payroll and inventory of finished goods which are being maintained manually.
- b) In the case of two other subsidiaries records of property, plant and equipment and payroll which are being maintained manually.

Further, the feature of recording audit trail (edit log) facility was not available at the database level to log any direct data changes for the accounting software used for maintaining the books of account of the Company.

During the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

ANNEXURE – B TO THE INDEPENDENT AUDITORS' REPORT

of even date on the Consolidated Financial Statements of Avanti Feeds Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

(Referred to in paragraph 2(f)) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

In conjunction with our audit of the Consolidated Financial Statements of Avanti Feeds Limited as of and for the year ended March 31, 2025, we have audited the internal financial controls over financial reporting of **Avanti Feeds Limited** (hereinafter referred to as "the Company"), its subsidiary companies and associate company which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company, its subsidiary companies and associate company, which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company, its subsidiary companies and associate company, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company, its subsidiary companies and associate company, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company, its subsidiary companies and associate company, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2025, based on the internal control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

1. Corporate information

Avanti Feeds Limited ('AFL' or the 'Company') is a listed public Company under "The Companies Act, 1956", with its registered office in Visakhapatnam. The company started its commercial operations in 1993 and now stands as the leading manufacturer of Shrimp Feed. AFL has three subsidiaries (incorporated in India) named Avanti Frozen Foods Private Limited (AFFPL) and Srivathsa Power Projects Private Limited, (SPPPL) and Avanti Pet Care Private Limited (APCPL). AFFPL is engaged in the business of exporting Shrimp, SPPPL is engaged in the business of generation and distribution of electricity and APCPL is engaged in manufacturing and trading of Pet Feeds. AFL, AFFPL, SPPPL and APCPL are hereinafter referred to as the 'Group'.

The Group's consolidated financial statements are approved for issue by the Company's Board of Directors on 28 May, 2025.

2: Basis of preparation of financial statements and material accounting policies

2.1 Basis of preparation and measurement

(i) Basis of preparation

These financial statements are prepared in accordance with Indian Accounting Standard (Ind AS), the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued there after.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use

(ii) Basis of measurement

The financial statements have been prepared under the historical cost convention on the accrual basis except for the following financial instruments which are measured at fair values:

- certain financial assets and liabilities that are measured at fair value
- biological assets - measured at fair value; and
- defined benefit plans- plan assets measured at fair value

(iii) Current Versus Non-Current classification

The company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised the asset, or intends to sell or consume it, in its normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period or
- Cash and cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in its normal operating cycle
- It is held for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents.

2.2. Principles of consolidation and equity accounting

(i) Subsidiaries

Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the group.

The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and balance sheet respectively.

(ii) Associates

Associates are all entities over which the group has significant influence but not control. This is generally the case where the group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

(iii) Equity method

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of the post-acquisition profits or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the group and its associates and joint ventures are eliminated to the extent of the group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the impairment policy.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

(iv) Changes in Ownership Interest

The group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

When the group ceases to consolidate or equity account for an investment because of a loss of control, joint control or significant influence, any retained interest in the entity is re measured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a joint venture or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

2.3 Measurement of fair values

The Company's accounting policies and disclosures require financial instruments to be measured at fair values. The Company has an established control framework with respect to the measurement of fair values.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

2.4 Use of estimates and judgements

The preparation of the financial statements in conformity with Ind AS requires the management to make estimates, judgments and assumptions. These estimates, judgments and assumptions

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements. The areas involving critical estimates or judgements are;

- Estimation of defined benefit obligation, refer note 38
- Useful life of property, plant and equipment refer note 2.4 (o)
- Fair value of biological asset refer note 2.4 (k)

2.5 Significant accounting policies

a. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Chairman and Managing Director (CMD) of the Holding company has been identified as the chief operating decision maker. Refer Note 37 for the segment information presented.

b. Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of the Group are measured using the currency of its primary economic environment in which the company operates ('the functional currency'). The consolidated financial statements are presented in Indian rupees (INR), which is the Group's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. Foreign exchange difference regarded as an adjustment to borrowing costs are presented in the Statement of Profit and Loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of Profit and Loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

c. Revenue recognition

The Company earns revenue primarily from sale of Shrimp Feed and Shrimp Exports

Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, we apply the following five step approach:

- (1) identify the contract with a customer,

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

- (2) identify the performance obligations in the contract,
- (3) determine the transaction price,
- (4) allocate the transaction price to the performance obligations in the contract, and
- (5) recognize revenues when a performance obligation is satisfied.

At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgement to determine whether each product or services promised to a customer are capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligation based on their relative stand-alone selling price or residual method. Stand-alone selling prices are determined based on sale prices for the components when it is regularly sold separately, in cases where the Company is unable to determine the stand-alone selling price the Company uses third-party prices for similar deliverables or the company uses expected cost plus margin approach in estimating the stand-alone selling price.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold is net of variable consideration on account of various discounts and schemes offered by the company as part of the contract.

d. Government grant

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected lives of the related assets and presented within other income.

Loans received from government in the nature of interest free deferred taxes are treated in the nature of government grant. The difference between the fair value of the loan and the amount of loan received is accounted as government grant. The government grant is recognised in the statement profit and loss over the period of loan.

e. Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Group operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions, where appropriate, on the basis of amounts expected to be paid to the tax authorities.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

f. Ind AS 116 Leases:

As a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised. The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Effective 01 April, 2019 the Company adopted IND AS 116, Leases and applied the standard to all lease contracts existing on 01 April, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the ROU asset as its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate at the Company's incremental borrowing rate at the date of initial application. Comparatives as at and for the year ended 31 March, 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of our Annual Report for the year 31 March, 2019

g. Impairment of assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash flows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

h. Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

i. Inventories

Inventories are valued at lower of cost and net realizable value. Cost of raw materials, components and stores and spares is determined on a weighted average basis.

Cost includes direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. Cost is determined on a weighted average basis. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

j. Biological assets

The group recognises biological assets of only when, the group controls the assets as a result of past events, it is probable that future economic benefits associated with such assets will flow to the group. Biological assets of the Group are in the nature of Consumable Biological Assets. It is bifurcated into Live Shrimp, Brood Stock, (the Parents) and harvested species which undergo biological transformation under different stages as Nauplius, Zoea, Mysis and Post Larvae. The Group sells the biological assets harvested from brood stock at Nauplius and Post Larvae Stages. The Brood Stock has a maximum useful life of 6 months for laying eggs. and thereafter these are destroyed.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

The valuation of the Brood stock biological assets are determined on the following basis:

Brood stock are used for captive consumption or to support farmers, it can not be sold before the end of its useful life and as such, there is no active market. Other references to market prices such as market prices for similar assets are also not available due to the uniqueness of the breed. Valuation based on a discounted cash flow method is considered to be unreliable given the uncertainty with respect to mortality rates and production. Consequently, brood stock and Shrimp seed (Different stages) are measured at cost, less depreciation and impairment losses.

The transmission phase from Nauplius to Zoea and Mysis are not considered as significant transformation of biological asset and hence Zoea and Mysis are not valued as per Ind AS - 41.

The fair value of biological assets is based on its market condition as on the reporting date. The quoted price in the market is the appropriate basis for determining the fair value of these biological assets.

In the event that market determined prices or values are not available for biological assets in its present condition we use the present value of the expected net cash flows from the asset discounted at a current market determined rate in determining fair value.

Fair Value Inputs are summarised as follows:

Level 1 Price Inputs – are quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date.

Level 2 Price Inputs – are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 Price Inputs – are inputs for the asset or liability that are not based on observable market data (unobservable inputs)."

The valuation of the live Shrimp consumable biological assets are determined on the following basis:

The group recognises of Live Shrimp at cost of the assets or the fair value which can be measured reliably. Expenditure incurred on biological assets (live Shrimp) are measured on initial recognition and at the end of each reporting period at its fair value less costs to sell. The gain or loss arising from a change in fair value less costs to sell of biological assets are included in Statement of Profit and Loss for the period in which it arises.

Management estimates the fair value less costs to sell of biological assets, taking into account the most reliable evidence available at each reporting date. The future realization of these biological assets may be affected by their survival rate, age and / or other market-driven changes that may reduce the future economic benefits associated with such assets. The fair value is arrived at based on the observable market prices of biological assets adjusted for cost to sells, as applicable.

k. Investments and other financial assets

(i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

(ii) Measurement

At initial recognition, the Group measures a financial asset at its fair value, plus in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.
- Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the Statement of Profit and Loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

loss. Dividends from such investments are recognised in profit or loss as other income when the group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/(losses) in the Statement of Profit and Loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iii) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 40 details how the Group determines whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected life time losses to be recognised from initial recognition of the receivables.

(iv) De recognition of financial assets

A financial asset is derecognised only when

- the Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(v) Income recognition

Interest income:

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends:

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

l. Derivatives

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period and are included in other gains/(losses).

m. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counter party.

n. Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation / amortisation on tangible assets is calculated on a straight-line basis as per the useful life prescribed and in the manner laid down under Schedule II to the Companies Act, 2013. The useful lives have been determined based on technical evaluation done by the management's expert which are higher than those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets. Assets costing individually rupee equivalent of INR 5,000 or less are fully charged off on purchase. Depreciation for assets purchased / sold during the period is proportionately charged.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Gains or losses arising from disposal of fixed assets which are carried at cost are recognised in the Statement of Profit and Loss.

o. Intangible assets

Intangible assets that are acquired are recognized at cost initially and carried at cost less accumulated amortization and accumulated impairment loss, if any.

(i) Computer software

Computer software are stated at cost, less accumulated amortisation and impairment losses, if any. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any.

(ii) Amortisation methods and periods

Intangible assets are amortized over their respective individual estimated useful lives of 6 years on a straight line basis.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

p. Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the year end which are unpaid. The amounts are unsecured and are usually paid as per mutually agreed terms. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

q. Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

r. Borrowing Cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

s. Provisions, Contingent liabilities and Contingent assets

Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provisions due to the passage of time is recognized as interest expense.

Contingent liabilities

Contingent Liabilities are disclosed, unless the possibility of outflow of resources is remote, when there is

- A possible obligation that arises from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or
- A present obligation that arises from past events whether it is either not probable that an outflow of resources will be required to settle the obligation or reliable estimate of the amount cannot be made

The company has disclosed the same as per the requirements of Ind AS 37

Contingent assets

A contingent asset is a possible asset that arises from past events and whose existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity. The Company does not recognize the contingent asset in its standalone financial statements since this may result in the recognition of income that may never be realised. Where an inflow of economic benefits are probable, the company disclose a brief description of the nature of contingent assets at the end of the reporting period. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and the Company recognize such assets.

t. Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

related obligation. Re measurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Group operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity; and
- (b) defined contribution plans such as provident fund, Employee State Insurance and superannuation fund

Gratuity obligations

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Re measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Defined contribution plans

The Group pays provident fund contributions to publicly administered provident funds and Employee State Insurance funds as per local regulations. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available. Superannuation Scheme (administered through a 'Superannuation Trust' formed by the Group) is a defined contribution plans, where the Group has no further obligations under the plan beyond its monthly/ quarterly contributions.

(iv) Bonus plans

The Group recognises a liability and an expense for bonuses. The Group recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

u. Contributed Equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

v. Dividends

Provision is made for the amount of any dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

w. Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Group;
- by the weighted average number of equity shares outstanding during the financial year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

x. Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

Statement of profit and loss:

- Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of the standalone financial statements.

2.6. Recent accounting pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31st March 2025, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

2.7. Critical estimates and judgements

i) The Company purchased soya bean in the year 2004-05, converted the same in to DOC in 2005-06 and used some part for own consumption in manufacturing of shrimp feed and some part was exported. The resultant soya oil was sold locally. The Sales Tax Act pertaining to soya bean processing and soya oil sale was amended with effect from 13.12.2004 and Commercial Tax department took the view that the soya bean purchased prior to 13.12.2004 will attract tax at old rates and a demand to ₹29.22 Lakhs was raised. This is being contested by the Company in the High Court of Madhya Pradesh.

ii) Company is importing Squid Liver Powder (SLP) which is one of the raw materials for manufacturing of shrimp feed. SLP is imported by the Company under raw material classification. However, Customs has disputed our claim and demanding duty applicable for import of complete feed. Company appealed against the order of CESTAT, Chennai, before Madras High Court.

The Company is contesting the demands and the management, including its tax advisors, believe that its position will likely be upheld in the appellate process. No tax expense has been accrued in the financial statements for the tax demand raised. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the company's financial position and results of operations.

iii) The Company has purchased spares like pellet dies etc. in the year 2017-2018 & 2018-2019 under stores & spares classification and paid IGST @12%. In the year 2022-23 customs has reclassified these items and charged IGST @18% and asked the Company to pay differential tax along with Interest. The Company has paid the differential amount of GST along with interest and asked waiver for fine and penalty. But the customs department has raised a fine ₹7,00,000/- and penalty 4,44,140/-. Aggrieved by the demand the Company has filed an appeal with the Commissioner of Customs (Appeals), Maharashtra.

The Company is contesting these demands and believes that its position will likely be upheld in the appellate process. Accordingly, the Company has not accounted the fine and penalty raised by the GST authorities. The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations.

iv) The department of commercial taxes has conducted GST audit for the financial year 2017-18 and issued a show cause notice for non-reversal of input tax credit under rule 42, for MEIS scrips sales. The Company has filed a response that ITC on common inputs were reversed during the investigation by Anti Evasion, Central Tax, Kakinada and submitted evidence of payment to the department. However, the department has calculated reversal of ITC on total inputs instead

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

of common inputs and passed an order u/s 73 on 28/12/2023, with a demand of ₹56.57 Lakhs, including interest. The Company has filed an appeal against department's order, before the Appellate Additional Commissioner of State Tax, Vijayawada on 26/03/2024.

The management believes that the ultimate outcome of this proceeding will not have a material adverse effect on the Company's financial position and results of operations

- v) The Company disputed the demand raised by the Income Tax department for the financial year 2014-15 and approached Commissioner appeal for resolution. In this regard paid an amount of ₹8.00 Lakhs.
- vi) The Company disputed the demands raised by GAIL (India) Limited with respect to retrospective revision in prices of gas supplied during July, 2005 to March, 2010. The Company paid the amount of INR 296 Lakhs under protest. The matter is pending with Hon'ble Supreme Court of India.
- vii) The Company disputed the demand raised by Oil and Natural Gas Corporation Limited (ONGC) with respect to increase in price of gas supplied during June, 2014 to July, 2014 for an amount of INR 30 Lakhs. The matter is submitted to arbitrator as per the order of Hon'ble Districts and Sessions Court, East Godavari district, Rajahmundry.

38. Employee Benefits

(i) Leave obligations

The leave obligations cover the group's liability towards earned leave.

Based on past experience, the Group does not expect all employees to take the full amount of accrued leave or require payment within the next 12 months. The following amounts reflect leave that is expected to be taken or paid within the next 12 months:

Particulars	31 st March 2025	31 st March 2024
Current leave obligations expected to be settled within the next 12 months	166.60	130.51

(ii) Defined Contribution Plans

The Group also has certain defined contribution plans. Contributions are made to provident fund (at the rate of 12% of basic salary), Employee State Insurance and Super Annuation fund in India for employees as per regulations. The contributions are made to registered funds administered by the government. The obligation of the Group is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the period towards defined contribution plan is ₹1152.70 Lakhs (31 March, 2024 ₹818.73 Lakhs)

(iii) Defined benefits Plan

Gratuity:

The Group provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement / termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of years of service. The gratuity plan is a funded plan. The Group does not fully fund the liability and maintains a target level of funding to be maintained over a period of time based on estimations of expected gratuity payments.

(ii) Significant estimates: actuarial assumptions

The significant actuarial assumptions for defined benefit obligation are as follows:

Particulars	31 st March, 2025	31 st March, 2024
Discount rate	7.15%	7.15%
Salary escalation rate	10.00%	10.00%
Employee attrition rate	10.00%	10.00%
Assumptions regarding mortality rate are set based on actuarial advice in accordance with published statistics.	IALM (2012-14) Ult.	IALM (2012-14) Ult.
Normal retirement age	60 years	60 years

(iii) Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Particulars	Change in assumption			Impact on defined benefit obligation				
				Increase in assumption			Decrease in assumption	
	March 31 2025 (₹in Lakhs)	March 31 2024 (₹in Lakhs)		March 31 2025 (₹in Lakhs)	March 31 2024 (₹in Lakhs)		March 31 2025 (₹in Lakhs)	March 31 2024 (₹in Lakhs)
Discount rate	1.00%	1.00%	Decrease by	262.63	215.24	Increase by	307.65	251.87
Attrition rate	50.00%	50.00%	Decrease by	143.89	104.33	Increase by	212.05	152.48
Salary escalation rate	1.00%	1.00%	Increase by	215.87	181.53	Decrease by	186.42	156.89

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

(iv) The major categories of plan assets are as follows

Particulars	31 st March, 2025	31 st March, 2024
Funds managed by Life Insurance Corporation of India	3,380.16	2741.43
Total	3,380.16	2741.43

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

(v) Risk exposure

Through its defined benefit plan, the Group is exposed to a number of risks, the most significant of which are detailed below:

Asset Volatility: The plan liabilities are calculated using a discount rate set with reference to bond yields; if plan assets under perform this yield, this will create a deficit. The Group's plan assets are insurer managed funds and are subject to less material risk.

Changes in bond yields: A decrease in bond yields will increase plan liabilities and the Group ensures that it has enough reserves to fund the liability

(vi) Defined benefit liability and employer contributions

Expected contributions to post-employment benefit plans for the year ending March 31, 2026 is ₹502.07 Lakhs

(i) Fair value hierarchy

The carrying amount of the current financial assets and current financial liabilities are considered to be same as their fair values, due to their short term nature. In absence of specified maturity period, the carrying amount of the non-current financial assets and non-current financial liabilities such as security deposits given, are considered to be same as their fair values.

The fair value of quoted equity investments, has been classified as Level 1 in the fair value hierarchy as the fair value has been determined on the basis of market value. The fair value of unquoted equity instruments has been classified as Level 2 in the fair value hierarchy as the fair value has been determined on the basis of discounted cash flows. The fair value of mutual funds is classified as Level 2 in the fair value hierarchy as the fair value has been determined on the basis of Net Assets Value (NAV) declared by the mutual fund. The fair value of Financial derivative contracts has been classified as Level 2 in the fair value hierarchy as the fair value has been determined on the basis of mark-to-market provided by the Bank from which the contract has been entered. The corresponding changes in fair value of investment is disclosed as 'Other Income'.

40. Financial Risk Management

The Group's activities expose it to market risk, liquidity risk and credit risk. This note explains the sources of risk which the entity is exposed to and how the entity manages the risk.

Risk	Exposure arising from	Measurement	Management

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

Risk	Exposure arising from	Measurement	Management
Market Risk - interest rate	Long term borrowings at variable rate	Sensitivity analysis	Capital is managed by Managing Director. The capital requirements are managed by analyzing the funds requirement and budgets in conjunction with the strategic plan.
Market Risk - Price risk	From investment in equity shares	Market and price sensitivity analysis.	The portfolio is not large and the risk is not significant.
Market Risk - foreign exchange rate	Future commercial transactions (receivable / payables)	Cash flow forecasting Sensitivity analysis	Forward foreign exchange contracts

The Group's risk management is carried out by the JMD under policies approved by the Risk Management Committee a sub-committee of the Board of Directors. The Committee provides guiding principles for overall risk management, as well as policies covering specific areas such as interest rate risk, credit risk and investment of excess liquidity.

Credit Risk

(i) Credit risk management

Credit risk arises from cash and cash equivalents, loans to related parties, security deposits and deposits with banks and financial institutions, as well as credit exposures to customers including outstanding receivables.

Credit risk is managed by the Marketing General Manager of AFL. The Group has few customer with most of them being foreign customers. The Group provides a credit period of 60-90 days which is in line with the normal industry practice.

The Marketing GM undertakes the credit analysis of each customer before transacting. The finance team under the guidance of Marketing GM also periodically review the credit rating of the customers and follow up on long outstanding invoices.

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an on going basis through out each reporting period. To assess whether there is a significant increase in credit risk the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forwarding-looking information. The below factors are considered:

- external credit rating (as far as available)
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the borrower's ability to meet its obligations
- actual or expected significant changes in the operating results of the borrower.
- significant increase in credit risk on other financial instruments of the same borrower.
- Significant changes in the expected performance and behaviour of the borrower, including changes in the payment status of the borrower in the Company and changes in operating results of the borrower.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

Macro economic information (such as regulatory changes, market interest rate or growth rates) is incorporated as part of the internal rating model. In general, it is presumed that credit risk has significantly increased since initial recognition if the payments are more than 180 days past due.

A default on a financial asset is when the counter party fails to make contractual payments within 365 days of when they fall due. This definition of default is determined by considering the business environment in which the entity operates and other macro-economic factors.

(ii) Provision for expected credit losses

The Group provides for expected credit loss based on the following:.

Category	Description of category	Basis for recognition of expected credit loss provision		
		Investments	Deposits and other financial assets	Trade receivables
High quality assets, low credit risk	Assets where there is low risk of default and where the counter party has sufficient capacity to meet the obligations and where there has been low frequency of defaults in the past	12-month expected credit losses	12-month expected credit losses	Life time expected credit losses
Medium risk, moderate credit risk	Assets where the probability of default is considered moderate, counter party where the capacity to meet the obligation is not strong	12-month expected credit losses	12-month expected credit losses	Life time expected credit losses
Doubtful assets, credit impaired	Assets are written off when there is no reasonable expectation of recovery, such as a debt or declaring bankruptcy or failing to engage in a payment plan with the Group. Where loans or receivables have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.	Asset is written off

Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The finance team monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows and any excess/short liquidity is managed in the form of current borrowings, bank deposits and investment in mutual funds.

NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31st MARCH, 2025

Market Risk – Interest Risk

The Group's main interest rate risk arises from long term and short term borrowings with variable rates, which exposes the Group to cash flow interest rate risk.

The exposure of the Group to interest rate changes at the end of the reporting period are as follows:

Particulars	31 st March, 2025	31 st March, 2024
Variable rate borrowings	1,046.03	1,324.03
Total	1,046.03	1,324.03

At the end of the reporting period, the Group had the following variable rate borrowings and receivables:

Particulars	31 st March, 2025			31 st March, 2024		
	Weighted Average Interest rate %	Balance	% of total borrowings	Weighted Average Interest rate %	Balance	% of total borrowings
